

Welcome in Security

**Opera is an independent company.
The production premises are based in Modena (Italy),
town with an old tradition in lock manufacturing.**

The company was set up in 1997 and it is specialised in the manufacturing of electronic locks and doors accessories. From a company that manufactured products, Opera has evolved into a company that offers solutions aimed at improving the security and safety of individuals and their belongings. Today with more than 20 people and advanced production means, Opera is at the top of the European ranking of locks manufacturers.

INNOVATORS SINCE 1997

“It doesn’t make sense to hire smart people and tell them what to do;
we hire smart people so they can tell us what to do”

Steve Jobs

This is the way we move in our job. We transform ideas in projects because we believe in our people and in their skills.

27 YEARS OF WORK
IN THE SECURITY BUSINESS

“MADE IN OPERA”
THIS IS MUCH MORE
THAN MADE IN ITALY.

100% LISTENING

Installation technicians, doors manufacturers, technical departments of the biggest companies producing security products, are our source. The request comes from the market and becomes our goal. To manufacture a product as the customer wishes is the only way of working we believe in.

100% SKILL

Engineers, electronics experts, mechanical technicians are our Research and Development department. We perform our ideas using the most innovative project software and the most modern laser cutting machines for quick prototyping.

100% MADE IN ITALY

We produce in Italy. We do not outsource production abroad; we believe in the quality of Italian companies and of our suppliers who are 90% from within Italy. Our high quality products are produced respecting environment and all relevant European standards.

100% COMMUNICATION

Our products fit for everybody. In 2013 we have created OPERA ACADEMY to update and inform the sales net about new products and field rules. In our headoffice in Modena, there is a dedicated meeting room at your disposal. You can contact us to fix an appointment, you will be our guest. If you wish, you could also visit our town and enjoy motors and gastronomy tours with professional tourist guides.

100% HOSPITABILITY

Technical data, prices, positive and negative peculiarities are visible to everybody. You only have to call or visit us on the web to get all the product information you need.

SAFETY

ELECTROMAGNETIC SECURITY LOCKS AND ELECTROMAGNETIC LOCKS ACCESSORIES, SAFETY SERIES 38-56

ELECTRONIC CONTROL UNITS FOR ELECTROMAGNETIC SECURITY LOCKS, SAFETY SERIES 57

OPERATING SYSTEM FOR CONTROLLED EMERGENCY EXITS, EXIT SYSTEM SERIES 58-60

SELF-CONTROLLED ALARM SYSTEM FOR CONTROLLED EMERGENCY EXITS, ALARM SYSTEM SERIES 61

FIRE CONTROL

HOLD OPEN ELECTROMAGNETS FOR FIRE DOORS, FIRE CONTROL SERIES 62-73

HYDRAULIC DAMPERS AND HYDRAULIC IMPACT SHOCK ABSORBERS FOR SLIDING FIRE DOORS 74-76

SINGLE ZONE FIRE PANEL, FIRE CONTROL SERIES 77-79

SMART TRIM

ELECTRIC HANDLES, SMART TRIM 80-89

OMNIA

ELECTRIC STRIKES, OMNIA MICRO SERIES 90-95

ELECTRIC STRIKES, OMNIA RADIAL SLIDE SERIES, RADIAL PRELOAD

96-97

SECURITY ELECTRIC STRIKES, OMNIA 1000 REVERSIBLE

98

SECURITY ELECTRIC STRIKES FOR ANTI-PANIC BARS, OMNIA EXIT SERIES

99

SECURITY ELECTRIC STRIKES, OMNIA BLINDO 700/BLINDO 1000/GLASS SERIES

100-102

FRONT PLATES FOR SECURITY ELECTRIC STRIKES AND LATCH LOCKS

103-111

OMNIA GEMINA

112-113

QUADRA

HORIZONTAL SECURITY SOLENOID LOCKS, QUADRA MICRO SERIES

114-122

HORIZONTAL SECURITY SOLENOID LOCKS, QUADRA SERIES

123-127

ACCESSORIES FOR SECURITY SOLENOID LOCKS, QUADRA SERIES

128 -129

ARCA

ELECTRIC CABINET LOCKS, ARCA/ARCA KEY/ARCA SLIDE SERIES

130-143

ELECTROMECHANICAL LOCKS FOR DOUBLE ACTION DOORS,
SWING SERIES

144

OPERATING SYSTEM FOR SINGLE OR INTERLOCKED DOORS

145

COMMAND CONSOLE, CONTROL SYSTEM SERIES

146-151

PRIMA

VERTICAL SECURITY SOLENOID LOCKS, PRIMA SERIES

152-163

VERTICAL SECURITY SOLENOID LOCKS, PRIMA OP SERIES

164-165

VERTICAL SECURITY SOLENOID LOCKS, PRIMA MAXI SERIES

166-169

CLASSICA

HORIZONTAL SECURITY SOLENOID LOCKS, CLASSICA SERIES

170-177

GATE BOLT

SURFACE FIXING SECURITY LOCKS, GATE LOCK SERIES

178-183

SECURITY ELECTRIC SOLENOID LOCK, GATE BOLT SERIES

184-189

MAXIMA

MAXIMA MOTOR LOCK WITH PIVOTING BOLT

190-198

MOTORISED SWINGING DEADBOLT ELECTROMECHANICAL
LOCKS SENSITIVE BARS AND CARDS

199

PROFILO

INDICATOR LAMPS AND INTERCOM SYSTEM, PROFILO DESIGN/
PROFILO/PROFILO OP SERIES

200-214

ACCESSORIES FOR ELECTRONIC CIRCUITS

215

DOOR ALIGNMENT SENSORS AND CONTACTS

216

LEAD COVERS AND ANTI-REBOUND BALL-CATCH

217

BOXES - TRANSFORMERS - TIMERS - POWER SUPPLIERS -
BACKUP BATTERIES

218-219

REMOTE CONTROLS AND RECEIVERS

220-223

ACCESS

ACCESS CONTROL SYSTEM, ACCESS MULTILINK NET SERIES

224-232

DEVICES FOR ACCESS MULTILINKNET AND MINILINK SERIES AND ACCESSORIES

233-237

DIGITAL DOOR VIEWER - VISION SERIES

238-239

ACCESS CONTROL FOR SELF-SERVICE BANK ATM

240-245

ACCESS CONTROL SYSTEM, ACCESS KEYPAD SERIES

246-248

ACCESS CONTROL SYSTEM, ACCESS TOUCH KEY SERIES

249

ACCESS CONTROL SYSTEM, ACCESS BIOMETRIC SERIES

250-251

DOORA - GSM DOOR OPENER

252-265

**PEOPLE
COUNTER**

PEOPLE COUNTER SYSTEM, PEOPLE COUNTER SERIES

266-273

HIGH SECURITY FLAT WRENCH CYLINDERS

274

SALES CONDITIONS

SAFETY

- ▶ SECURITY ELECTROMAGNETS
- ▶ IDEAL FOR EMERGENCY EXITS AND CONDOMINIUM ENTRY DOORS
- ▶ SILENT AND RESISTANT
- ▶ HOLDING FORCE FROM 150 TO 1500 KG
- ▶ CAN BE APPLIED ON PRE-EXISTING DOORS

PLUS

- ▶ Solenoid lock with electromagnetic holding
- ▶ Fail safe
- ▶ Easy to fix or introduce on pre-existing doors
- ▶ No maintenance or regulations needed in the course of time
- ▶ No mechanical wear out

AVAILABLE COLOURS

CONDOMINIUM FRONT DOOR EXAMPLE

INTERNAL OPENING

EXTERNAL OPENING

CONDOMINIUM FRONT DOOR EXAMPLE

- ▶ Always closed door guarantee
- ▶ Silent operation
- ▶ No maintenance on the electromagnet or regulation of the door closer
- ▶ Fail safe
- ▶ External opening by key switch, remote control or access control

MICRO ELECTROMAGNETIC LOCK

213,20

Version: **for mortice fixing**

body in stainless steel protected against humidity

Dimensions of the body (mm): 170 x 32 x 24

Total dimensions with side wings (mm): 200 x 32 x 24

Armature plate with residual anti-magnetism pin: (mm) 152 x 32 x 8

Operating voltage: 12 Vdc

Current: 350 mA

Holding force: up to 150 Kg.

Use: locking system for sliding doors, safe deposit boxes and cabinets**Packaging:** electromagnet, armature plate and accessories for assembly

Description

MIDI ELECTROMAGNETIC LOCK

Version: **for surface fixing**

Body in stainless steel with rounded sides, protected against humidity

Dimensions (mm): 230 x 45 x 30

Armature plate with anti-magnetism pin (mm): 185 x 45 x 14

Operating voltage: 12 Vdc

Current: 350 mA @ 12 V

Holding force: up to 350 Kg.

Use: Security locking system for swing doors

Without sensor

With state sensor

278,20

298,70

Packaging: electromagnet, flat fixing plate, Armature plate and accessories for assembly

13500

ELECTROMAGNETIC LOCK MINI SERIES

Version: **for mortice fixing**

Fixing bracket in silver anodized aluminium

Dimensions (mm): 227 x 38 x 27

Armature plate with residual anti-magnetism pin: (mm) 185 x 37 x 12

Operating voltage: 12/24 Vdc

Current: 500 mA @ 12 V / 250 mA @ 24 V

Holding force: up to 300 Kg.

Use: Security locking system for sliding doors

Packaging: electromagnet, Armature plate and accessories for assembly

SELF MANAGED ALARM SISTEM FOR CONTROLLED EMERGENCY EXITS ALARM SYSTEM SERIES

Art.	Description	€
------	-------------	---

55005

SELF-MANAGED ALARM "ALARM SYSTEM"

269,10

Alarm system for opening control of emergency exits equipped with only a mechanical lock or panic bar.

Wall mount container in beige ABS

Dimensions (mm): 240 x 150 x 48

Board power: 12 Vac/dc

Built-in backup battery charger circuit

Alarm signalling via lamp and intermittent buzzer

Use: alarm system for emergency exits

Adjustable timer for:

- Alarm interval before self-reset (adjustable from 5 to 60 seconds)
- Turning off of the reset alarm with fixed time of 5 seconds
- Alarm for prolonged opening of the leaf from 5 to 120 seconds

Inputs with N.O. contact for:

- Immediate authorised opening (without alarm)
- Door sensor
- Reset

Outputs with N.O. relay contact for:

- Unauthorised opening alarm
- Prolonged door opening alarm
- Starting of system

Description of operation:

the central unit allows surveillance of passages through emergency exits. Personnel authorised to pass, activating a dry contact with a badge, keypad, key switch, etc... can open the door without activating the alarm. If the door is reclosed within the set time, no alarm is activated. If the door must remain open beyond the door "Prolonged Opening" time, the specific alarm is activated which deactivates automatically upon relocking of the door or by pressing the reset button.

On the contrary, if the door is opened without authorisation, the "Opening" alarm is activated immediately and remains active for the pre-established interval, after which an auto-reset is automatically performed which deactivates the alarm for 5 seconds. At this point, if the door has been reclosed, the system goes back into stand-by. Otherwise, if the door remains open, the alarm status will reactivate. The reset can also be performed by remote button.

LEGENDA

The **hydraulic dampers** allow the automatic reclosure of a sliding fire door to be braked. After the critical moment of departure is over, the velocity of the door increases progressively and proportionally to the travel period and to its own weight. In emergency situations, the energy release could cause serious damage to people or things that may be in the way. The hydraulic regulator allows the closure velocity to be stabilized in a constant way

60001 Series

HYDRAULIC IMPACT SHOCK ABSORBERS FOR SLIDING FIRE DOORS

The **hydraulic shock absorbers** are used as stops to slow the impact and therefore facilitate the closure of a sliding door thanks to the braking effect deriving from the passage of the oil through holes and slots made in the cylindrical body. The degree of braking can be increased or decreased through a regulation system by opening or closing the passages of the oil through the piston. The stem of the shock absorber, once compressed, automatically rearms upon the reopening of the door through a special magnet, preparing itself for a new cycle.

Art.	Description	€
	SHORT HYDRAULIC SHOCK ABSORBER Galvanized steel cylindrical body Diameter of the body and magnet: 28 mm Minimum total length including magnet: 196 mm Total length in maximum extension: 252 mm Stroke: 56 mm Hydraulic shock absorbing system Adjustment of the hardness of the shock absorber Fixing through threaded terminals M 16 x 1 Safety valve to release the brake fluid in the case of fire and to prevent the spontaneous reset of the stem by thermal expansion of the liquid (only Art. 65000)	
	65000 <u>With safety valve</u>	129,20

Use: closure impact shock absorber for sliding fire doors with counterweights

	LONG HYDRAULIC SHOCK ABSORBER Galvanized steel cylindrical body Diameter of the body and magnet: 28 mm Minimum total length including magnet: 300 mm Total length in maximum extension: 430 mm Stroke: 130 mm Hydraulic shock absorbing system Adjustment of the hardness of the shock absorber Fixing through threaded terminals M 16 x 1 Safety valve to release the brake fluid in the case of fire and to prevent the spontaneous reset of the stem by thermal expansion of the liquid	
	65001 <u>With safety valve</u>	194,40

Use: closure impact shock absorber for sliding fire doors with counterweights

è prodotto nella Fabbrica

PLK0003

il sottoposto dal Produttore ad un controllo della produzione di fabbrica e ad ulteriori prove ai campioni prelevati in fabbrica e secondo un piano predefinito dai piani di prova.

Per detto prodotto, l'IMQ ha eseguito le prove di tipo (ITI) per le pertinenti caratteristiche del prodotto secondo l'approvazione tecnica della Fabbrica e del Controllo del Processo di Fabbrica (PCF) ed esegua inoltre le sorveglianze continue del medesimo Controllo del Processo di Fabbrica (PCF).

Questo Certificato attesta una serie di prestazioni relative all'attuazione di conformità ad una prescrizione descritte nel allegato 24 della norma

EN 54-2:1997+A1:2006

EN 54-4:1997 + A1:2002 + A2:2006

sempre applicata e che il prodotto soddisfa i requisiti richiesti.

Questo Certificato è stato emesso per la prima volta il data 2010-04-02 e rimane valido fino a che le condizioni previste nella norma armonizzata (data) ovvero le modalità di fabbricazione del prodotto (ovvero l'organizzazione stessa del Controllo del Processo di Fabbrica (PCF) applicato) vengono modificate al modo seguente.

Art.	Description	€
05203A	DUAL HEAT AND SMOKE DETECTOR Container in white ABS Dimensions (mm): 100 diameter x 52 height Operating voltage : 24 Vdc (10 – 30 Vdc) Absorption in standby 67 microA @ 24Vdc/ in alarm: 25 mA Operating temperature: - 20 to + 70 °C Operational technology: optical, heat Supplementary detector complete with base for ceiling mount, can be connected to article 52002 Compliance: EN54-7 (smoke) Use: this dual heat detector activates alarm condition in case of smoke detection or heat detection	87,10
ART. + BRA	On demand: <u>relay base for connection with other systems</u>	+ 70,30
05204A	HEAT RATE OF RISE DETECTOR Container in white colour plastic material Dimensions (mm): 100 diameter x 47 height Operating voltage : 24 Vdc (10 – 30 Vdc) Absorption in standby 55 mA / in alarm: 25 mA Operational technology: heat rate of rise with trigger for increases higher than 30°C per minute. Operating temperature: - 20 to + 70 °C Supplementary detector complete with base for ceiling mount, can be connected to article 52002 Compliance: EN54-5 (heat) Use: this heat rate of rise detector triggers an alarm condition in case of detection of a rapid rise in temperature	64,70
ART. + BRA	On demand: <u>relay base for connection with other systems</u>	+ 70,30
05206A	TEST SPRAY FOR SMOKE DETECTORS Spray bottle to check correct operation of the smoke detectors Art. 05203	67,60
05207	ELECTRONIC SOUNDER Container in red colour plastic material Dimensions (mm): 93 diameter x 63 height Operating voltage: 12 / 24 Vdc - 15 mA Sound power: Max 114 dB @ 24 Vdc Working temperature -25° +70° C IP rating: P54 32 tones selectable by internal dip switches. Compliance: EN54-3 Use: electronic alarm to be used with single zone panel 52002	92,50
05115	RELEASE/RESET PUSH BUTTON Box in grey colour plastic material for wall mount Dimensions: mm 81x67x55 N.O / N.C push button contact Use: push button for release of the retainer electromagnets or for silencing reset of the fire control panel Ref. 52002	24,90

Art.	Description	€
05110R	CALL POINT FOR ALARM ACTIVATION WITH PRESSURE, WITH MANUAL RESET ABS box Dimensions: 99 x 95 x 43 mm C/N.O internal exchange contact. N.C on demand Manual reset of the contact Degree of protection: IP41 Transparent Plexiglas cover for the protection of the activation button of the case Red box (for the connection to fire prevention systems) Use: Pressure on the plastic front panel plate activates the switching of the electrical contact Compliance: EN54-11 (only item 05110R)	29,90

00112	BATTERIES 12 Vdc rechargeable lead battery Dimensions: 97 x 42 x 53 mm Power: 1.2 A for item. 52002	43,90

Art.	Description	€
ELECTRICALLY OPERATED HANDLE		
For locks for full metal and glass fire proof doors		
Brushed metal body and handle Case-hardened steel internal mechanisms Dimensions: mm 234 x 48,5 x 38, handle height mm 84 Distance between cylinder and handle mm 72 (on demand 85mm, 92mm or full blank with no hole).		
Handle panel mm 9 (on request mm 8) Mounting on the door, no additional holes required Selectable handle panel rotation 45° or 60° Power supply 12/ Vac/dc – 24Vdc Absorbed current: at 12V – 700 mA peak/ 500 mA holding at 24V – 300 mA peak/200 mA holding		
Electronic opening holder Red LED (handle disabled for 40610 version) and green (handle enabled for 40810 version)		
VERSION WITHOUT CLOSING TIME DELAY		
Use: replacement of traditional mechanical handle mounted outside door. The handle, normally free turning, can be enabled by de-energizing (P/N 40610 version) or energizing (P/N 40810 version) through a button contact or access control system. Action is limited to the duration of the impulse.		
40610	<u>Fail safe – enabled with no power – Matt chrome plated</u>	471,60
40610B	<u>Fail safe – enabled with no power – White painted (RAL 9010)</u>	457,30
40610N	<u>Fail safe – enabled with no power – Black painted (RAL 9005)</u>	457,30
40810	<u>Fail secure – disabled with no power – Matt chrome plated</u>	471,60
40810B	<u>Fail secure – disabled with no power – White painted (RAL 9010)</u>	457,30
40810N	<u>Fail secure – disabled with no power – Black painted (RAL 9005)</u>	457,30
VERSION WITH CLOSING TIME DELAY		
Additional features over the previous version: Internal timer adjustable from 0-60 s (optional) Open collector output can be coupled with a micro external relay to report handle enabled (see P/N 05258) Two colours red/green LED signalling the handle status enabled or disabled Blue LED to light the bottom of door		
Use: replacement of traditional mechanical handle mounted outside door. The handle, normally free turning, can be enabled by closing a NO button contact or access control system. In this version power supply is always on		
40611	<u>Fail safe – enabled with no power – Matt chrome plated</u>	549,40
40611B	<u>Fail safe – enabled with no power – White painted (RAL 9010)</u>	535,10
40611N	<u>Fail safe – enabled with no power – Black painted (RAL 9005)</u>	535,10
40811	<u>Fail secure – disabled with no power – Matt chrome plated</u>	549,40
40811B	<u>Fail secure – disabled with no power – White painted (RAL 9010)</u>	535,10
40811N	<u>Fail secure – disabled with no power – Black painted (RAL 9005)</u>	535,10
Note: the use of split frames is required when fitting the electric handle to a panic bar through the mortice lock

DOUBLE ELECTRONIC HANDLE APPLICATION**+81,40**

(l.g. 40810DM) Electric handle with fixing plate for mounting two electric handles on both side of the same door.
See drawing below.

Double handle fixing sample
40810DM + 40810

00416

FIXING PLATE FOR ELECTRICALLY OPERATED HANDLE**26,10**

Body in black painted steel

Dimensions (mm): 260 x 100 x 3

Fixing to the door by means of the electric handle itself without having to drill additional holes

Use: the plate base is a supplementary accessory which can be combined with the electric handle in cases the surface contact needs to be increased (when the fixing of the electric handle tends to crush the structure of the door itself)

Fixing under-plate item 00406

Art.	Description	€
ELECTRICALLY OPERATED HANDLE		
For rim panic exit bars		
Brushed metal body and handle		
Case-hardened steel internal mechanisms		
Dimensions: mm 232 x 55 x 38 handle height mm 84		
Handle panel can be rotated 45° or 60° depending on the type of panic bar used		
Mechanical enabling through flat key cylinder		
Mounting on the door, no additional holes required		
Power supply 12/24 V AC/DC		
Absorbed current: at 12V – 700 mA peak/ 500 mA holding		
at 24V – 300 mA peak/200 mA holding		
Electronic opening holder		
Red LED (handle disabled for 40620 version) and green (handle enabled 40820 version)		
Version WITHOUT CLOSING TIME DELAY		
Use: replacement of traditional mechanical handle mounted outside door.		
The handle, normally free turning, can be enabled by de-energizing (P/N 40620 version) or energizing (P/N 40820 version) through a button contact or access control system.		
Action is limited to the duration of the impulse.		
40620	Fail safe – enabled with no power – Matt chrome plated	548,20
40620B	Fail safe – enabled with no power – White painted (Ral 9010)	535,10
40620N	Fail safe – enabled with no power – Black painted (Ral 9005)	535,10
40820	Fail secure – disabled with no power – Matt chrome plated	548,20
40820B	Fail secure – disabled with no power – White painted (Ral 9010)	535,10
40820N	Fail secure – disabled with no power – Black painted (Ral 9005)	535,10
Version WITH CLOSING TIME DELAY		
Additional features over the previous version:		
Internal timer adjustable from 0-60 s (optional)		
Open collector output can be coupled with a micro external relay to report handle enabled (see P/N 05258)		
Two colours red/green LED signalling the handle status enabled or disabled		
Blue LED to light the bottom of door		
The handle, normally free turning, can be enabled by closing a NO button contact or access control system. In this version power supply is always kept		
40621	Fail safe – enabled with no power – Matt chrome plated	615,30
40621B	Fail safe – enabled with no power – White painted (RAL 9010)	603,30
40621N	Fail safe – enabled with no power – Black painted (RAL 9005)	603,30
40821	Fail secure – disabled with no power – Matt chrome plated	615,30
40821B	Fail secure – disabled with no power – White painted (RAL 9010)	603,30
40821N	Fail secure – disabled with no power – Black painted (RAL 9005)	603,30
TO COMBINE THE ELECTRIC HANDLE WITH A RIM PANIC BAR THE 00428 FIXING PLATE MUST BE USED		
Art. + MEC	Extra On demand: Mechanical handle - Matt chrome plated (i.e 40620MEC)	-191,60

ELECTRICALLY OPERATED HANDLES FOR PANIC BARS SMART TRIM SERIES

Art.	Description	€
00428	FIXING PLATE FOR MOUNTING THE ELECTRICALLY OPERATED HANDLE WITH RIM TYPE PANIC BAR Galvanized steel made. See web page for panic bar compatibility – just view the on side QR Code with your smartphone app.	72,30

Use: the fixing plate allows use of handles and electric handles 40620 – 40621 - 40820 - 40821 with different brands of panic bars.

ELECTRIC HANDLE ON FULL METAL FIRE DOOR

OMNIA

- ▶ SECURITY ELECTRIC STRIKES FOR WOODEN OR METAL DOORS
- ▶ RADIAL AND OMNIA 16 SERIES WITH 16 MM REDUCED GAUGE
- ▶ EXIT SERIE FOR PANIC BARS
- ▶ BLINDO SERIE FOR INTERLOCKED AND REINFORCED DOORS
- ▶ GLASS SERIE FOR CRYSTAL DOORS

**PLUS**

- ▶ Ideal to electrify door openings with mechanical locks
- ▶ Breaking resistance from 350 to 1000 kg
- ▶ Fail safe or fail secure versions
- ▶ Low consumption versions to be matched with access control systems
- ▶ Versions with door status micro switch
- ▶ Wide range of front plates and finishes

CRYSTAL DOOR EXAMPLE

- ▶ Glass electric strike for crystal doors
- ▶ Door block without lock
- ▶ Fail safe or fail secure versions
- ▶ For crystal thickness up to 12 mm
- ▶ Stainless steel front plate
- ▶ To be matched with access control systems

www.opera-italy.com

Common mechanical characteristics: Body and latch block in anti-corrosive metal, symmetrical - reversible. Destruction resisting power: 350 Kg. Horizontally adjustable latch block. **Provided without striking plate (to be ordered— see pages 104, 105 and 108).** **Use:** electric strike for aluminium or wood doors with latch or deadbolt locks.

Art.	Description	€
	ELECTRIC STRIKE Fail locked Without hold open function (opening limited to electrical impulse duration)	
31012	<u>Operating voltage: 8 -12 Vac - 1.000 mA - without open release lever</u>	36,20
31012UNI	<u>Operating voltage: 12 Vdc - 300 mA - without open release lever</u>	43,60
31024DC	<u>Operating voltage: 24 Vdc - 170 Ma - without open release lever</u>	42,30
31112	<u>Operating voltage: 8 -12 Vac - 1.000 mA - with open release lever</u>	39,80
31112UNI	<u>Operating voltage: 12 Vdc - 300 mA - with open release lever</u>	46,10
31124DC	<u>Operating voltage: 24 Vdc - 170 Ma - with open release lever</u>	46,20

Hold open
function lever

	ELECTRIC STRIKE Fail locked With hold open function (opening with electrical impulse) Relocking after door opening	
31212L	<u>Operating voltage: 8 -12 Vac – 1.000 mA - without open release lever</u>	41,10
31212L UNI	<u>Operating voltage: 12 Vdc – 300 mA - without open release lever</u>	47,30
31224LDC	<u>Operating voltage: 24 Vdc – 170 mA - without open release lever</u>	47,40
31312L	<u>Operating voltage: 8 -12 Vac – 1.000 mA - with open release lever</u>	43,60
31312L UNI	<u>Operating voltage: 12 Vdc – 300 mA - with open release lever</u>	49,80
31324LDC	<u>Operating voltage: 24 Vdc – 170 mA - with open release lever</u>	49,80

	AUTOMATIC ELECTRIC STRIKE WITH HOLD OPEN FUNCTION BUILT IN Fail locked. Operating voltage: 8 -12 Vac - Current: 1,000 mA With built in hold open function without reload piston (opening with electrical impulse) Relocking after door opening	
31412A	<u>Without open release lever</u>	46,10
31512A	<u>With open release lever</u>	54,30

Common mechanical characteristics: Body and latch block in anti-corrosive metal, symmetrical – reversible. Destruction resisting power: 350 Kg. **Horizontally adjustable latch block. Without striking plate (to be ordered separately – see pages 104, 105 and 108).**
Use: electric strike for aluminium or wood doors with latch or deadbolt locks

Art.	Description	€
31012DCPN	LOW CONSUMPTION ELECTRIC STRIKE FOR ACCESS CONTROL SYSTEMS Fail locked Operating voltage: 12 Vac/dc - Current absorption: 250 mA Internal anti-disturb varistor Without hold open function (opening limited to electrical impulse duration) Use: electric strike for aluminium or wood doors with latch or deadbolt locks Special low current absorption with anti-disturb varistor. Ideal for use with access control systems (i.e. : hotel badge readers)	89,60

31012DCF	ELECTRIC STRIKE WITH UP-LIFTED LATCH FOR ACCESS CONTROL SYSTEMS Fail locked Operating voltage: 12Vac/dc - 250mA - without hold open function - opening limited to electrical impulse duration - Internal anti-disturb varistor	96,00
31412FTA	Operating voltage: 12Vac - 1000 mA - with internal hold open function - opening with electrical impulse - Relocking after door opening Use: electric strike for wood doors with deadlocked latch. It allows the complete action of the lock latch in order to activate the deadlocking. Special low current absorption with anti-disturb varistor. Ideal for use with access control systems (i.e.: hotel badge readers)	52,20

31012TD	TEMPORISED ELECTRIC STRIKE Fail locked Operating voltage :12 Vac - Current : 650 mA Dimension 75x21x28 mm Without hold open function (opening with electrical impulse) Relocking after door opening Opening time from 5 to 10 secs After electrical impulse, door re-locks even if not moved, after few seconds.	93,70
31112TD	Without open release lever With open release lever	97,20

31812	ELECTRIC STRIKE Fail unlocked Horizontally adjustable latch block Opening limited to the duration of lack of power Operating voltage: 12 Vdc - Current: 350 mA	98,40
31824	Operating voltage: 24 Vdc - Current: 120 mA Note: Not for timber doors	98,40

www.opera-italy.com

Common mechanical characteristics: Body and latch block in anti-corrosive metal, symmetrical – reversible.

Destruction resisting power: 500 Kg. Latch block horizontally adjustable. **Without striking plate (to be ordered separately – see page 106)**

Use: electric strike for aluminium or wood doors with latch or deadbolt locks.

Operation: in this radial electric strike the door latch bolt does not pivot out during opening but rather moves into the electric strike housing. This means that no cut needs to be made in the door post for the movement of the latch bolt during opening.

Art.	Description	€
	ELECTRIC STRIKE Operating voltage: 8 -12 Vac - 1.000 mA Fail locked Without hold open function (opening limited to electrical impulse duration)

Opening encumbrance

No opening encumbrance

ELECTRIC STRIKES OMNIA RADIAL PRELOAD

Common mechanical characteristics: Body and latch block in anti-corrosive metal, symmetrical – reversible. Destruction resisting power: 500 Kg. Latch block horizontally adjustable. **Without striking plate (to be ordered separately – see page 106)**

Use: electric strike for aluminium or wood doors with latch or deadbolt locks.

Operation: in this radial electric strike the door latch bolt does not pivot out during opening but rather moves into the electric strike housing. This means that no cut needs to be made in the door post for the movement of the latch bolt during opening.

NEW: guaranteed opening despite 40 Kg side pressure.

Art.	Description	€
	ELECTRIC STRIKE - PRELOAD Operating voltage: 6/28 Vac/dc Consumption: 12V / 390 mA peak / 210 mA holding 24V / 240 mA peak / 110 mA holding Fail locked Without hold open function (opening limited to electrical impulse duration)	
32012PLA	<u>Without open release lever</u>	86,50

Fail locked		
Body in black painted metal, matt chrome on demand. Latch block in metal, symmetrical - reversible.		
Power supply: 8/12 Vac/1000 mA		
Destruction resistance power: 350 Kg.		
Opening limited to electrical impulse duration		106,70
36012C		
36412C	Opening with electric pulse and relocking after door opening	
ART. +CR	Matt chrome finish	+ 14,80
Provided with n° 7 shims item 00360C		
00360C	1mm shim	2,00

www.opera-italy.com

Common mechanical characteristics: Body and latch block in metal, asymmetrical (determine hand). Destruction resisting power: 700 Kg.
Without striking plate (to be ordered separately - See page 107)

Use: electric strikes for armoured doors

See page 91 to set hand of the product

STRIKING PLATE FOR ELECTRIC STRIKES

Art.	Description	€
03031	LONG STRIKING PLATE For latch and deadbolt security locks. In stainless steel Dimensions (mm): 250 x 25 x 3 - see drawing at page 110 Reversible hand Use: for all electric strikes Omnia Micro series, Omnia 1.000 series	18,70
03130	LONG STRIKING PLATE For latch and deadbolt security locks, hole (mm) 102 x 12 for insertion in the swinging deadbolt. In grey painted steel Dimensions (mm): 250 x 25 x 3 - see drawing at page 110 Reversible hand Use: only for Omnia Micro series strikes	7,80
03131	LONG STRIKING PLATE For latch and deadbolt security locks, hole (mm) 102 x 12 for insertion in the swinging deadbolt. In stainless steel Dimensions (mm): 250 x 25 x 3 - see drawing at page 110 Reversible hand Use: only for Omnia Micro series strikes	18,70
03132	LONG STRIKING PLATE For latch and deadbolt security locks, tapered hole (mm) 102 x 12 for insertion in the swinging deadbolt. In stainless steel Dimensions (mm): 250 x 25 x 3 - see drawing at page 110 Reversible hand Use: only for Omnia Micro series strikes	19,40
03162 03162BA	SHORT ANGULAR STRIKING PLA Only for latch locks - Squared edges In gold painted steel Dimensions (mm): 172 x 32 x 25 - see drawing at page 110 Reversible hand <u>Squared edges</u> <u>Rounds edges</u> Use: for all electric strikes Omnia Micro series, Omnia 1.000 series	13,50 13,50

Art.	Description	€
03310	SHORT STRIKING PLATE FOR OMNIA 16 - RADIAL Only for latch locks In grey painted steel Dimensions (mm): 130 x 22 x 3 - see drawing at page 110 Reversible hand Use: for all electric strikes Omnia 16 - Radial series for mortice fixing, mounted on wooden or PVC door profiles	5,80
03310R	SHORT STRIKING PLATE FOR OMNIA RADIAL Only for latch locks In nickel plated steel Dimensions (mm): 130 x 22 x 3 - see drawing at page 110 Reversible hand Use: for all electric strikes Omnia Radial series for mortice fixing, mounted on wooden or PVC door profiles	6,30
03330	LONG STRIKING PLATE FOR OMNIA 16 - RADIAL For latch and deadbolt security locks In grey painted steel Dimensions (mm): 250 x 22 x 3 - see drawing at page 110 Reversible hand Use: for all electric strikes Omnia 16 - Radial series for mortice fixing, mounted on wooden or PVC door profiles	9,10
03331	LONG STRIKING PLATE FOR OMNIA 16 - RADIAL For latch and deadbolt security locks In stainless steel Dimensions (mm): 250 x 22 x 3 - see drawing at page 110 Reversible hand Use: for all electric strikes Omnia 16 - Radial series for mortice fixing, mounted on wooden door/window profiles	19,40
03342.1 03342.2	LONG ANGULAR STRIKING PLATE FOR OMNIA 16 - RADIAL For latch and deadbolt security locks In zinc plated steel with short side flank Dimensions (mm): 208 x 36 x 18 - see drawing at page 111 Not reversible – Specify hand <u>Right hand</u> <u>Left hand</u> Use: for all electric strikes Omnia 16 – Radial series for mortice fixing, mounted on wooden door profiles	19,40 19,40

STRIKING PLATE FOR ELECTRIC STRIKES

Art.	Description	€
	LONG STRIKING PLATE FOR OMNIA BLINDO 700 For security locks for armoured doors latch and 4 deadbolts backset (mm) 28 In polished nickel plated steel Dimensions (mm): 248 x 35 x 2.5 - see drawing at page 111 Not reversible – Specify hand - see page 93	
	03370.1 <u>Right hand</u>	18,70
	03370.2 <u>Left hand</u>	18,70
	03370R <u>Reversible</u>	21,30
Use: or all electric strikes Omnia Blindo 700 series		
	LONG STRIKING PLATE FOR OMNIA BLINDO 700 For security locks for armoured doors latch and 4 deadbolts backset (mm) 28 (41.6 mm between latch and deadbolt) In polished nickel plated steel Dimensions (mm): 322 x 35 x 2,5 - see drawing at page 111 Not reversible – Specify hand - see page 93	
	03371.1 <u>Right hand</u>	18,70
	03371.2 <u>Left hand</u>	18,70
	Use: for all electric strikes Omnia Blindo 700 series	
	03372 LONG STRIKING PLATE FOR OMNIA MICRO For security locks for armoured doors latch and 2 deadbolts backset (mm) 55.6 In polished nickel plated steel Dimensions (mm): 293 x 32 x 2,5 - see drawing at page 111 Reversible hand	18,70
	Use: for all electric strikes Omnia Micro series	
	LONG STRIKING PLATE FOR OMNIA BLINDO 700 For security locks and 3 deadbolts backset (mm) 37 In polished nickel plated steel Dimensions (mm): 248 x 35 x 2.5 - see drawing at page 111 Not reversible – Specify hand - see page 93	
	03374.1 <u>Right hand</u>	18,70
	03374.2 <u>Left hand</u>	18,70
	03374R <u>Reversible</u>	21,30
Use: for all electric strikes Omnia Blindo 700 series		
	LONG STRIKING PLATE FOR OMNIA BLINDO 700 For security locks and 4 deadbolts backsets (mm) 28 (33.5 mm between latch and deadbolt) In polished nickel plated steel Dimensions (mm): 322 x 35 x 2,5 - see drawing at page 111 Not reversible – Specify hand - see page 93	
	03375.1 <u>Right hand</u>	18,70
	03375.2 <u>Left hand</u>	18,70
	Use: for all electric strikes Omnia Blindo 700 series	

Art.	Description	€
 03410	SHORT STRIKING PLATE Only for latch locks In hardened anodized aluminium. Dimensions (mm): 160 x 25 x 3 - see drawing at page 110 Reversible hand Use: for all electric strikes Omnia Micro and Omnia 1.000 series for mortice fixing	10,30
 03411	SHORT STRIKING PLATE Only for latch locks In stainless steel Dimensions (mm): 160 x 25 x 3 - see drawing at page 110 Reversible hand Use: for all electric strikes Omnia Micro series, Omnia 1.000	11,70
 03431	LONG STRIKING PLATE For latch and deadbolt locks In stainless steel Dimensions (mm): 280 x 25.5 x 3 - see drawing at page 110 Reversible hand Use: for replacement of security type electric strikes eff-eff series 141, 331 and 341 with Omnia 1,000 series for mortice fixing	62,80

Art.	Description	€
23500	ELECTRIC LOCK OMNIA GEMINA SERIES	270,40

Mechanical opening with European cylinder or handle.
 Front and strike plate in stainless steel.
 Bolt with mechanical lock in the closed position (excluding 20 mm backset version).
 Device on the front to lock the bolt in the closed position.
 Bolt dimensions: 30 mm x 2 mm x extension 14 mm.
 Power supply: 12 Vac.
 Current absorbed: 1,200 mA.
 Version: Fail secure (opening with power supply).
 Available backsets: mm 20 - 25 - 30 - 35 - 40 - 50 - 60

Use: Electric lock ideal for operation on hinged doors. The item consists of an electrical part to be fixed on the fixed frame of the door and a mechanical part to be installed on the door leaf. The door automatically closes when the door leaf is brought close, thanks to the pressure of the specific mechanical alignment device that manages the release of the latch. By providing the electrical impulse, the preload of the latch is released, allowing the unlocking of the latch during opening. The same opening can also be achieved mechanically using a key and handle.

ELECTRIC LOCK FOR SWING DOOR

DOOR

FRAME

QUADRA

- ▶ HORIZONTAL SECURITY SOLENOID LOCKS
- ▶ APPLICATION ON DOORS AND ROLLING SHUTTERS
- ▶ MICRO VERSION FOR CABINETS AND WINDOWS APPLICATION
- ▶ MANUAL ACTIVATION WITH EUROPEAN CYLINDER
- ▶ EASY INSTALLATION

PLUS

- ▶ Reduced size Quadra Micro version for cabinets and doors closing
- ▶ Quadra version for doors and rolling shutters closing
- ▶ Easy operating system by direct current power supply
- ▶ Fail safe or fail secure versions
- ▶ Integrated electronics versions

DOOR WITH ELECTRONIC LOCK AND INTEGRATED ELECTRONICS

INTERNAL OPENING

EXTERNAL OPENING

CONTROLLED OPENING

PLUS EXAMPLE

- Mortice closing system for metal or aluminium door frames
- Rim versions as supplementary closing system
- Ideal as closing system for cabinets managed by access control units
- To be matched to access control systems

HORIZONTAL SECURITY SOLENOID LOCKS QUADRA MICRO SERIES

Art.	Description	€
		
	MICRO SOLENOID LOCK - FAIL SAFE Open without power Striking plate in stainless steel (mm) 80 x 25 x 3 Armature plate in stainless steel (mm) 80 x 25 x 3 with magnet adjustable in extension (only Art. 20610XS) Deadbolt diameter (mm) 8, extension 8 Operating voltage: 12 Vdc/400mA or 24Vdc/200mA - ED 100% Mode of operation: horizontal (vertical on request see page 129)	
20610XS-12	12V - With N.O. magnetic door position sensor	242,80
20611XS-12	12V - Without magnetic sensor	222,30
20610XS-24	24V - With N.O. magnetic door position sensor	242,80
20611XS-24	24V - Without magnetic sensor	222,30

		
	MICRO SOLENOID LOCK - FAIL SAFE Open without power Deadbolt diameter (mm) 8, extension 11 (8 mm. stroke) Operating voltage: 12 Vdc/400mA or 24Vdc/200mA - ED 100% Mode of operation: horizontal (vertical on request see page 129)	
20613XS-12	12 V	153,90
20613XS-24	24 V	153,90
Art. + AM	On request: <u>mechanical release with knob (see page 113)</u>	+ 9,50

		
	MICRO SOLENOID LOCK - FAIL SECURE Closed without power Striking plate in stainless steel (mm) 80 x 25 x 3 Armature plate in stainless steel (mm) 80 x 25 x 3 with magnet adjustable in extension (only Art. 20810XS) Deadbolt diameter (mm) 8, extension 8 Operating voltage: 12 Vdc/400mA or 24Vdc/200mA - ED 100% Mode of operation: horizontal (vertical on request see page 129)	
20810XS-12	12V - With N.O. magnetic door position sensor	242,80
20811XS-12	12V - Without magnetic sensor	222,30
20810XS-24	24V - With N.O. magnetic door position sensor	242,80
20811XS-24	24V - Without magnetic sensor	222,30

		
	MICRO SOLENOID LOCK - FAIL SECUREE Closed without power Deadbolt diameter (mm) 8, extension 11 (8 mm. stroke) Operating voltage: 12 Vdc/400mA or 24Vdc/200mA - ED 100% Mode of operation: horizontal (vertical on request see page 129)	
20813XS-12	12 V	153,90
20813XS-24	24 V	153,90
Art. + AM	On request: <u>mechanical release with knob (see page 113))</u>	+ 9,50

Art.	Description	€
		
	MICRO SOLENOID LOCK WITH LATCH - FAIL SECURE Closed without power Striking plate in stainless steel (mm) 80 x 25 x 3 Armature plate in stainless steel (mm) 80 x 25 x 3 with magnet adjustable in extension (only Art. 20910XS) Latch diameter (mm) 8, extension 8 Operating voltage: 12 Vdc/400mA or 24Vdc/200mA - ED 100% Mode of operation:horizontal (vertical on request see page 129)	
20910XS-12	12V - With N.O. magnetic door position sensor	261,10
20911XS-12	12V - Without magnetic sensor	241,70
20910XS-24	24V - With N.O. magnetic door position sensor	261,10
20911XS-24	24V - Without magnetic sensor	241,70

		
	MICRO SOLENOID LOCK WITH LATCH - FAIL SECURE Closed without power Latch diameter (mm) 8, extension 11 (8 mm. stroke) Operating voltage: 12 Vdc/400mA or 24Vdc/200mA - ED 100% Mode of operation:horizontal (vertical on request see page 129)	
20913XS-12	12 V	173,30
20913XS-24	24 V	173,30
Art. + AM	On request: mechanical release with knob (see page 113)	+ 9,50

		
	MICRO SOLENOID LOCK WITH LATCH - FAIL SAFE Open without power Striking plate in stainless steel (mm) 80 x 25 x 3 Armature plate in stainless steel (mm) 80 x 25 x 3 with magnet adjustable in extension (only Art. 20910XSA) Latch diameter (mm) 8, extension 8 Operating voltage: 12 Vdc/400mA or 24Vdc/200mA - ED 100% Mode of operation:horizontal (vertical on request see page 129)	
20910XSA-12	12V - With N.O. magnetic door position sensor	261,10
20911XSA-12	12V - Without magnetic sensor	241,70
20910XSA-24	24V - With N.O. magnetic door position sensor	261,10
20911XSA-24	24V - Without magnetic sensor	241,70

		
	MICRO SOLENOID LOCK WITH LATCH - FAIL SAFE Open without power Latch diameter (mm) 8, extension 11 mm (8 mm. stroke) Operating voltage: 12 Vdc/400mA or 24Vdc/200mA - ED 100% Mode of operation:horizontal (vertical on request see page 129)	
20913XSA-12	12 V	173,30
20913XSA-24	24 V	173,30
Art. + AM	On request: mechanical release with knob (see page 125)	+ 9,50

Technical drawings of the 3D-printed part showing front, top, and side views with dimensions:

- Front View:** Shows a rectangular base with a width of 70 mm and a height of 30 mm. A circular feature with a diameter of $\phi 12$ is located on the right side.
- Top View:** Shows a rectangular base with a width of 70 mm and a depth of 30 mm. A circular feature with a diameter of $\phi 12$ is located on the right side.
- Side View:** Shows a rectangular base with a width of 70 mm and a height of 30 mm. A circular feature with a diameter of $\phi 12$ is located on the right side.
- Isometric View:** Shows the 3D structure with dimensions: 70 mm (width), 30 mm (depth), 30 mm (height), and $\phi 12$ (diameter of the circular feature).

21811

SECURITY SOLENOID LOCK - FAIL SECURE

Closed without power
Striking plate in stainless steel mm 100 x 40 x 3
Armature plate in stainless steel mm 100 x 40 x 3
with magnet adjustable in extension (only Art. 21810)
Deadbolt diameter (mm) 12, extension 18
Operating voltage: 12 Vdc/900mA or 24Vdc/450mA - ED 100%
Mode of operation: horizontal (vertical on request see page 129)
Deadbolt position micro-switch C./N.O./N.C

With N.O. magnetic door position sensor *
Without magnetic sensor

254,20
234,80

* For connection to central control unit 54610A

21812

SECURITY SOLENOID LOCK WITH INTERNAL ELECTRONIC - FAIL SECURE

342,00

Front plate and striking plate in stainless steel mm 100 x 40 x 3
Striking plate mm 100 x 40 x 3 with adjustable magnet for door status position
Bolt dimensions: diameter 12 mm, extension 18 mm
Operating voltage: 12Vdc - 800 mA peak, 450 mA for maintenance
24Vdc - 500 mA peak, 250 mA for maintenance
Internal microprocessor control electronic
Rapid plug-in connector
Bolt position free voltage contact C. / N.O. / N.C.

Push buttons for monitoring and adjustment of reclosing times from 0-5 sec. To approach of door and from 0-60 sec. If the door is not opened.

Mode of operation: horizontal (vertical on request see page 129)

21813

SECURITY SOLENOID LOCK - FAIL SECURE

165,30

Art. + AM

On request: mechanical release with knob (see page 125)

+ 9,50

Note: The Quadra Micro series solenoid lock, due to the high operating temperatures, are not suitable for mounting on wood or PVC doors

INTERLOCKED SYSTEM WITH QUADRA LOCKS

LEGENDA

- 1 Solenoid locks
- 2 Indicator lamps
- 3 Control unit
- 4 Power supply
- 5 Desktop console
- 6 Sensitive bars
- 7 Sensitive cards
- 8 Lead covers

ARCA

- ▶ SECURITY SOLENOID LOCKS
- ▶ KEY VERSION FOR SAFE-DEPOSIT BOXES AND STRONG-BOXES
- ▶ SLIDE VERSION FOR AUTOMATIC SLIDING DOORS
- ▶ ENTIRELY IN STAINLESS STEEL FOR EXPOSURE TO WEATHER CONDITIONS
- ▶ MANUAL ACTIVATION WITH EUROPEAN CYLINDER

PLUS

- ▶ Innovative electric lock for sliding doors
- ▶ High resistance to breaking and entering, over 800 kg
- ▶ Locked without power supply
- ▶ Mechanical opening by European cylinder
- ▶ Internal micro switch for door status signalling
- ▶ Striking plate with retractable pin when the door is open

INTERNAL OPENING

EXTERNAL OPENING

PLUS EXAMPLE

- 1 For 1 or 2 shutters sliding doors
- 2 No need of management electronics
- 3 Mechanical closure at shutters approach
- 4 For motorized sliding doors or sliding gates
- 5 To be matched with intercom and access control system

ELECTRIC LOCKS FOR ARMORED CABINETS SERIES ARCA KEY

Common characteristics: Stainless steel body. Nickered tempered steel block pin on stainless steel counterplate. Strength of resistance to breaking and entering: 800 kg. Insertion of the front panel block pin.

Use: safety closure, can be electrically controlled for the closing of cabinet doors and safety lockers.

Art.	Description	€
	SECURITY ELECTRIC LOCK Locked without power supply Stainless steel front plate Stainless steel counterplate, extension can be adjusted from 21 to 27 mm Pin diameter 9.5 mm. extension 25 mm Power supply: 12 or 24 Vdc Current absorbed: 1,000 mA at 12 V/500 mA at 24 V Opening: limited to the duration of the impulse with current limiter C. / N.A. / N.C. microswitch of inserted pin position	
22912	Power supply: 12 Vdc	310,60
22924	Power supply: 24 Vdc	310,60
22912CS	Power supply: 12 Vdc - with pin cylinder for opening with key	335,50
22924CS	Power supply: 24 Vdc - with pin cylinder for opening with key	335,50

APPLICATIONS EXAMPLES

NEW

Art.	Description	€
	ROTARY ELECTRIC LOCK LOCK body and striking plate in stainless steel internal electronic circuit with microcontroller Electronic opening control through a clean N.O. contact. mechanical closing when the door is closed Connections via snap-in connector. Safety mechanical unlock with manual pull. N.O./N.C. indication of the lock's open/close status. Power supply: 12 ÷ 24 Vdc polarized Peak current: 150 mA at 12 V 75 mA at 24 V Idle current: 24 mA at 12 V 12 mA at 24 V Use: Electronically operated lock with high load capacity rotary closure for cabinets, drawers, and show cases	
22912A	<u>Version without front plate - Front or side mounting</u>	262,00
22912AF	<u>Version with stainless steel front plate</u>	283,00

APPLICATION EXAMPLES

SAFE COMPARTMENTS AND DRAWERS

Locking mechanism for compartments containing sensitive items, with a locking mechanism even in the absence of power. Unlocking can be controlled by remote opening systems with the ability to indicate the actual open or closed status.

CABINET WITH CARD READER (RFID) OPENING

Locking system for locker cabinets in gym changing rooms, swimming pools, laboratories, hospitals, offices. Electronic unlocking controllable by RFID readers or other pre-installed authentication systems. Mechanical unlock via pull mechanism to ensure the possibility of opening even in the absence of power. Easily integrable into systems for automated product delivery.

Art.	Description	€
23000	ELECTROMECHANICAL LOCK FOR DOUBLE ACTION DOORS Mechanical opening with European type cylinder Front plate and strike plate in stainless steel Reversible latch with mechanical block in closed position Striking plate device to block the latch in the closed position Latch dimensions (mm): 26 x 15.5 x extension 13 Operating voltage: 12/24 Vac/dc Absorbed current: 280 mA at 12 Vdc - 140 mA at 24 Vdc Version: fail unlocked (closed with power) and fail locked (open with power) selectable Backset (mm): 30 Latch blocked/released status contact C. / N.O. / N.C. Supplied with 2 striking plates - 1 for regular swing door, 1 for double swing action door Use: electromechanical lock ideal for operation on double action doors (opening in both directions). The door is reclosed automatically when it approaches by pressing on the special mechanical alignment device.	294,00
	On request: as the opening of the electromechanical lock is limited to the duration of the electric pulse (security version) or the lack of power (fail unlocked version), we recommend using the timer board item 51500 (pag. 43) to time release the lock (usable only if the electromechanical lock is powered with 12 Vdc). If powered with 24 Vdc, other time release devices available on the market and not provided by us must be used.

MANAGEMENT ELECTRONIC FOR SINGLE DOOR OR INTERLOCKING

Art.	Description	€
54610A	<p>ELECTRONIC CONTROL UNIT For one door ABS box in white color RAL9002 designed for wall mounting, inside an electrical box, or on DIN35 rail using the mounting kit included in the package.</p> <p>Dimensions: 102 x 50 x 27.5 mm Power supply: 10-30 Vdc / 12-18 Vac Current consumption: 60 mA in standby Microprocessor-based control electronics Preparation for interlocking connection between 2 or more doors Inputs with N.O. (Normally Open) contacts for:</p> <ul style="list-style-type: none"> - Opening - Locking - Emergency - Reset Alarms - Latch position - Door position - Interlock <p>Outputs:</p> <ul style="list-style-type: none"> - 1 Power relay, configurable N.O./N.C. contact - 30 Vac/Vac, 5 A max with resistive load - Status relay C./N.O./N.C. - 30 Vdc/Vac, 1 A max with resistive load for connection to Red/Green traffic lights - Alarm relay C./N.O. contact, configurable N.O./N.C. - 30 Vdc/Vac, 1 A max with resistive load for Extended door opening, Fault, Emergency, Simultaneous opening of 2 or more doors if connected in interlock <p>Possibility of cascading connection to interlock multiple doors with each other (to be connected for each door to be controlled).</p> <p>Button for monitoring and adjusting times for:</p> <ul style="list-style-type: none"> - Closing from 0 - 5 sec. upon door closure - Closing from 0 - 240 sec. if the door is not opened - Extended door opening alarm from 0 - 240 sec. 	260,00

INTERLOCKING BETWEEN TWO OR MORE DOORS

Art.	Description	€
	UNIVERSAL COMMAND CONSOLE CONTROL SYSTEM Aluminium console box in black with silk screened polycarbonate panel Membrane button with touch effect Dimensions (mm): 195 x 160 x 50 (1 and 2 door versions) Dimensions (mm): 300 x 160 x 50 (3 and 4 door versions) Operating voltage: 12/24 Vac/Vdc Connections via screw terminal block N.O. inputs for command of door Opening from console N.O. inputs for command of door Opening from external push buttons or sensitive handles N.O. input for Reset command N.O. input for Block command N.O. / + 12 Vdc Input for alarm activation N.O./N.C. input with memory for management of the interlock with insertion of a Metal-Detector * N.O./N.C. input for presence of persons inside the interlock for automatic operation * ON/OFF key switch for turning off system via external relay (i.e. item REL12V) Manual, Automatic, Emergency key switch Automatic operation selectable in 4 modes: mono-directional, bi-directional, first door open, from external push button / sensitive handle on the doors* Optical signalling: Red/Green LED for Open/Closed lock status indication Red/Green LED for Open/Closed door status indication Alarm, Reset, Presence of Persons, Automatic, Emergency, Block, Metal-Detector, Power / Low Battery Alarm LEDs Internal buzzer (can be deactivated) for acoustic signalling of pressing of push buttons, for signalling of an active alarm and low battery * Functions enabled in 2 - 3 and 4 door consoles for interlocking operation	
54611A	<u>For 1 door</u>	430,40
54612A	<u>For 2 doors</u>	465,90
54613A	<u>For 3 doors</u>	897,50
54614A	<u>For 4 doors</u>	930,70

Use: universal console for door command

Connectable to Prima series Solenoid bolts, 54610A electronics, Safety series magnetic locking systems, Omnia 1000 series electric strikes, Quadra series Solenoid bolt and Quadra Micro series.

REL12V	SERVICE RELAY Relay with polarized activation coil at 12 Vdc/90 mA Double switching C./N.O./N.C. - Contacts rating 10 A @ 250 Vac	42,70
REL24V	Relay with polarized activation coil at 24 Vdc / 50 mA Double switching C./N.O./N.C. - Contacts rating 10 A @ 250 Vac	42,70

Use: can be used as relay for turning on and off the system via ON/OFF key switch on the console (or for other uses where required)

Art.	Description	€

54614B

DESKTOP CONSOLE - CONTROL SYSTEM SELECTABLE FOR 1-2-3-4 DOORS

470,00

Setup for 1 door

Setup for 2 door

Setup for 3 doors

Setup for 4 door

White ABS control box with capacitive control panel screen-printed on polycarbonate secret light technology. Capacitive touch buttons

Dimensions: 175 x 140 x 52 mm (1, 2, 3, and 4-door versions)

Power supply: 12 Vdc / 2A.

Plug-in power supply 230V / 12 Vdc - 2A (included in the package)

RS-485 serial connections via RJ45 connector.

ON/OFF button for turning off the console.

Key switch for emergency management.

Selectable Automatic/Manual function in 4 modes (internal dip-switch setting):

Unidirectional, bidirectional, first door open, from external touch buttons/handles on the doors* (functions enabled in 2, 3, and 4-door consoles for interlock operation).

Optical indicators (icons): White illuminated button for Auto/Normal mode (illuminated white text enabled).

White/red illuminated button for Lock mode.

White illuminated button for Reset mode.

White, green, and red illuminated buttons for opening doors 1, 2, 3, and 4.

Red/Green icons for indicating lock status (Open/Closed).

Red/Green icons for indicating door status (Open/Closed).

Icons for Alarm, Reset, Person Presence, Automatic, Emergency, Lock, Metal Detector, External Call, Power/Battery Low.

Internal (disengageable) buzzer for audible signaling of button press, active alarm, and low battery.

Use: connectable, on a serial line through interface circuits, to solenoid bolts of the Prima and Classica series, electronic devices 54610A, matched with the locking systems of the Safety, Omnie1.000, Quadra, Quadra Micro series, to the electronic devices art. 54250 and 54255, matched with the motorized electromechanical locks of the Maxima series art. 25500

54615B

AUXILIARY CIRCUIT FOR PERIPHERAL MANAGEMENT

140,00

Dimensions: for ABS box on DIN rail

Power supply: 12 - 24 Vdc (non-polarized) 500mA max

12 - 18 Vac 5VA max

Inputs:

- No. 2 normally open (N.O.) contacts for opening
- No. 2 normally open (N.O.) contacts for external intercom call
- No. 1 normally open (N.O.) contact for presence sensor
- No. 1 normally open (N.O.) contact for metal detector
- No. 1 normally open (N.O.) contact for battery monitor for battery backup management (with optional circuit)

Signal terminals:

- No. 1 x RS-485

Internal button and dip switch for configuration management, LED indicators for functionality and network activity.

Use: Circuit that expands the functionalities of the console system via serial connection for the management of peripherals (metal detector, external call, auxiliary openings, presence sensor, and battery backup management).

54616B

MASTER OPNET CIRCUIT FOR SERIAL COMMUNICATION MANAGEMENT

148,00

Dimensions: ABS box on DIN rail

Power supply: 12 - 24 Vdc (non-polarized) 500mA max

12 - 18 Vac 5VA max

Signal terminals: 2 x RS-485 GPIO Interfacing: internal button for configuration management, internal dip switch for configurations, LED indicators for functionality and network activity.

Use: Circuit for managing the communication of all wired peripherals via serial connection.

54617B

BATTERY BACK-UP

108,00

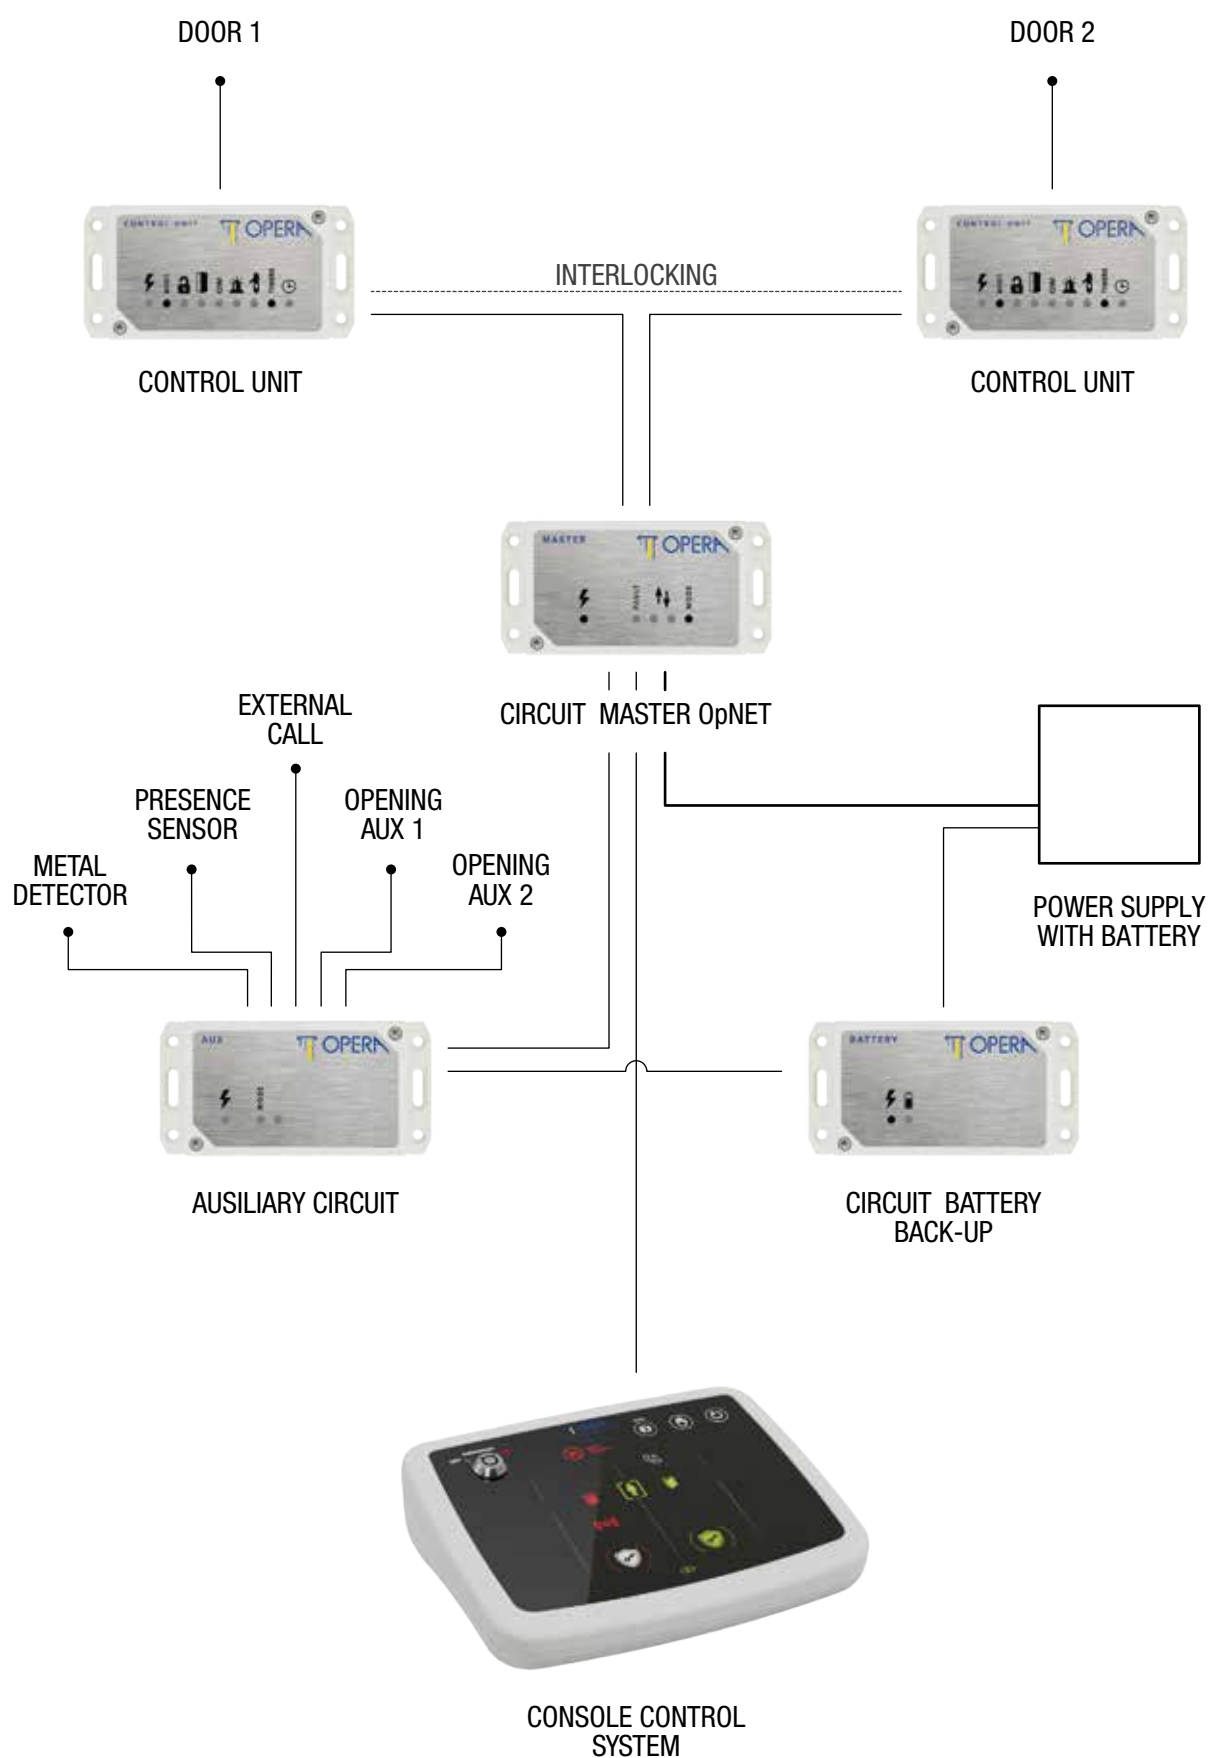

Dimensions: ABS box in DIN rail

Power supply: 12 -18 Vac / 15 - 24 Vdc - Current 5A max

Maximum absorbed power 75 W

Regulated output voltage 13 Vdc

Use: Circuit that allows the management of the presence and the charge / discharge status of the backup battery

SECURITY SYSTEM WITH ELECTRIC STRIKE OMNIA 1.000

LEGENDA

- 1** Security electric strike
- 2** Indicator lamp
- 3** Power supply
- 4** Remote opening button

LEGENDA

- 1 Electric Strikes
- 2 Indicator lamps
- 3 Control units
- 4 Power supply
- 5 Desktop console
- 6 Sensitive bars

PRIMA

- ▶ SECURITY SOLENOID LOCKS
- ▶ ANTI CUTTING AND ANTI BREAKING AND ENTERING REVOLVING BOLT
- ▶ MANUAL ACTIVATION WITH EUROPEAN CYLINDER AND HANDLE
- ▶ FOR AN INTENSIVE AND CONTINUOUS USE
- ▶ IDEAL FOR STEEL OR ALUMINIUM DOORS
- ▶ SINGLE OR INTERLOCKED CONFIGURATION

PLUS

- ▶ Security solenoid lock
- ▶ Hardened steel revolving bolt with mechanical block
- ▶ Fail safe or fail secure versions without power
- ▶ Internal microprocessor control electronics
- ▶ High resistance to breaking and entering
- ▶ Mechanical opening with European cylinder or handle
- ▶ Automatic closing with adjustable timing

SINGLE DOOR WITH SOLENOID LOCK

INTERNAL OPENING

EXTERNAL OPENING

PLUS EXAMPLE

- Solenoid lock to be mounted on emergency exits
- To be mounted on the frame or on the shutter
- Single door operating system (condominiums, offices, companies)
- Interlocked doors operating system (banks, jewelries, corporations)
- To be matched with intercom and access control systems

Art.	Description	€
SOLENOID BOLT FOR INTERLOCKING SYSTEMS		
Mechanical opening with European type cylinder (cylinder with internal knob not usable) Striking plate in stainless steel (mm) 320 x 25 x 3 Armature plate in stainless steel (mm) 150 x 25 x 3 with alignment magnet Revolving bolt in anti-cutting hardened steel with mechanical block in closed position Deadbolt dimension (mm): extension 20 (25 in the XL version), diameter 16 Lock body dimensions on page 140 Operating voltage: from 10 to 30 Vdc Absorbed current: 2.5/3 A peak 130/230 mA for maintenance with electronic control Internal microprocessor control electronics Rapid plug-in connector Ready for interlocking connection of 2 or more doors N.O. Packaging: solenoid bolt, armature plate, cylinder screw and connector		

INTERLOCKING KITS WITH VERTICAL SECURITY SOLENOID BOLTS PRIMA SERIES

Art.

Description

KIT FOR INTERLOCKING SYSTEM EXAMPLE 1

Features: Management of the doors with manual opening by means of console push buttons

Kit is made up of:

- 2 Solenoid bolts series 24600 or 24800 (specify backset)
- 1 Power supply item 05320A or 05312A (in box with space for battery)
- 1 Command console item 54612A
- 2 Concealed cable covers (with lock mounted on the door) item 08600
- 1 Backup battery item 00712

KIT FOR INTERLOCKING SYSTEM EXAMPLE 2

Features: Management of the doors with manual opening by means of console push buttons

Indicator lamp signalling to be inserted on the door post to support management of opening to the public.

Kit is made up of:

- 2 Solenoid bolts series 24600 or 24800 (specify backset)
- 1 Power supply item 05320A or 05312A (in box with space for battery)
- 1 Command console item 54612A
- 4 Indicator lamps item 55010 (Silver or Black) or 55030
- 2 Concealed cable covers (with lock mounted on the door) item 08600
- 1 Backup battery item 00712

KIT FOR INTERLOCKING SYSTEM EXAMPLE 3

Features: Management of the doors with manual opening by means of console push buttons

Indicator lamp signalling to be inserted on the door post to support management of opening and intercom for communication with the public outside.

Kit is made up of:

- 2 Solenoid bolts series 24600 or 24800 (specify backset)
- 1 Power supply item 05320A or 05312A (in box with space for battery)
- 1 Command console item 54612A
- 3 Indicator lamps item 55010 (Silver or Black) or 55030
- 1 Indicator lamp item 55012 (Silver or Black) or 55030 + 55033
- 1 Intercom handset item 05513
- 2 Concealed cable covers (with lock mounted on the door) item 08600
- 1 Backup battery item 00712

KIT FOR INTERLOCKING SYSTEM EXAMPLE 4

Features: Management of the doors with manual opening by means of console push buttons and automatic opening by means of external push buttons on the indicator lamps.

Indicator lamp signalling to be inserted on the door post to support management of opening and intercom for communication with the public outside.

Kit is made up of:

- 2 Solenoid bolts series 24600 or 24800 (specify backset)
- 1 Power supply item 05320A or 05312A (in box with space for battery)
- 1 Command console item 54612A
- 3 Indicator lamps with push buttons item 55011 (Silver or Black) or 55031
- 1 Indicator lamp item 55014 (Silver or Black) or 55031 + 55033
- 1 Intercom handset item 05513
- 2 Concealed cable covers (with lock mounted on the door) item 08600
- 1 Backup battery item 00712

SOLENOID BOLT MOUNTING

Art.	Description	€
------	-------------	---

SOLENOID BOLT FOR SINGLE DOOR

(Spare parts - Interchangeable with Corni type solenoid locks)

Mechanical opening with European type cylinder

(cylinder with internal knob not usable)

Striking plate in stainless steel (mm) 320 x 25 x 3

Armature plate in stainless steel (mm) 150 x 25 x 3 with alignment magnet

Deadbolt in anti-cutting hardened steel with mechanical block in closed position

Deadbolt dimensions (mm): extension 20, diameter 18 x 14

Operating voltage: from 10 to 30 Vdc

Absorbed current: 2.5/3 A peak - 130/230 mA for permanent maintenance with electronic control

Internal microprocessor control electronics

Rapid plug-in connector

Ready for interlocking connection of 2 or more doors

N.O. Opening control

Deadbolt position contact C. / N.O. / N.C

Opto-electronic bolt position control

Magnetic door position sensor

Push buttons for monitoring and adjustment of relocking times from 0-5 seconds upon approach of the door and from 0-60 seconds if the door is not opened

The timings can be disabled for use of the solenoid bolt with external control electronics

- 4 Desktop Console

CLASSICA

- ▶ SECURITY SOLENOID LOCK
- ▶ ANTI CUTTING AND ANTI BREAKING AND ENTERING REVOLVING BOLT
- ▶ MANUAL ACTIVATION WITH EUROPEAN CYLINDER AND HANDLE
- ▶ FOR AN INTENSIVE AND CONTINUOUS USE
- ▶ IDEAL FOR ALUMINIUM OR STEEL DOORS, SINGLE OR INTERLOCKED CONFIGURATION

PLUS

- ▶ Horizontal security solenoid lock for emergency exits
- ▶ Hardened steel revolving bolt with mechanical block in closing position
- ▶ Fail secure deadbolt version without power
- ▶ High resistance to breaking and entering
- ▶ Mechanical opening with European cylinder or handle
- ▶ Automatic closing with adjustable timings

INTERNAL OPENING

EXTERNAL OPENING

PLUS EXAMPLE

- ▶ Horizontal security solenoid lock for emergency exits
- ▶ Insertion on the door
- ▶ Single door operating system (condominiums, offices, companies.)
- ▶ Interlocked doors operating system (banks, jewelries, corporations)
- ▶ To be matched with intercom and access control systems

Description

€

SOLENOID BOLT FOR SINGLE DOOR

Mechanical opening with European type cylinder

(Cylinder with internal knob not usable)

Front and strike plate in hardened steel

Non-reversible anti-cut bolt in tempered steel

(Indicate the opening direction - see drawings at the bottom of the page)

Bolt dimensions: 16mm in diameter x 14 x 16mm extension

Lock body dimensions: see page 175

Power supply: 10 to 30 Vdc - 2.5/3 A peak

130/230 mA maintenance with electronic control

Internal microprocessor control electronics

Connection via quick-release connector

N.C. Opening command

C./N.O./N.C. Bolt position contact

Opto-electronic control of the bolt position

Buttons for monitoring and adjusting closure times from 0-60 sec. if the door is not opened.

Timings can be disabled for external electrobolt management

Fail secure:Without Square handle plate right handWithout Square handle plate left handWith 8mm square handle - right handWith 8mm square handle - left hand**Backsets available (mm):** 70 and 90 on the same mechanicsWith 8mm square handle - right handWith 8mm square handle - left handSolenoid bolt with anti-rebound ball mounted directly on the strike plate with ABS slide on the front (only for series 279)**Packaging:** solenoid bolt, armature plate, cylinder screw and connector

APPLICATION EXAMPLES

CLOSING SYSTEM WITH CLASSICA SERIES SOLENOID BOLT

LEGENDA

- 1 Solenoid lock
- 2 Striking plate
- 3 Indicator lamp
- 4 Button
- 5 Power supply
- 6 Lead covers

GATE

- ▶ SECURITY SOLENOID LOCKS FOR GARAGES AND AUTOMATIC GATES
- ▶ ANTI CUTTING HARDENED STEEL REVOLVING BOLT WITH MECHANICAL BLOCK IN CLOSING POSITION
- ▶ MANUAL ACTIVATION WITH EUROPEAN CYLINDER
- ▶ ENTIRELY IN STAINLESS STEEL, RESISTANT TO WEATHER CONDITIONS EXPOSURE
- ▶ ACTIVATION THROUGH GATE REMOTE CONTROL

GATE LOCK

www.opera-italy.com

PLUS

- ▶ Rim solenoid lock for gates and doors
- ▶ Fail secure deadbolt without power
- ▶ Resistant to weather conditions
- ▶ Interchangeable with traditional electric locks
- ▶ Automatic deadbolt closing
- ▶ Rounded cylinder with adjustable entry

This feature is automatically activated when temperature drops below 5°C (41°F). The antifreeze protection integrated into the lock body prevents freezing of the mechanical parts, including cylinder

SOLENOID LOCK ON AN EXTERNAL GATE

SOLENOID LOCK ON A DOOR

PLUS EXAMPLE

1. Closed gate
2. Open gate
3. Closed door
4. Open door

Description

SOLENOID LOCK FOR AUTOMATIC GATESVersion: **for surface fixing**

Lock body in stainless steel, aluminium and anti-corrosion treated steel

Casing cover in stainless steel (version 28800)

Casing cover in black painted steel (version 28800LC)

Flat fixing plate in stainless steel to be welded (version 28800)

Dimensions of the body (mm): 335 x 60 x 55

Mechanical opening with Euro-profile cylinder (from both sides)

Provided without cylinder

To select the length of the cylinder see page 189

Rubber weather protection of the cylinder hole

Deadbolt in steel diameter (mm) 20 x extension 60 (stroke 50)

Bolt "total reaction" burglar device in closed position

C. / N.O. / N.C. output contact

Operating voltage : 24 Vdc

Absorbed current 5 A peak, 750/900 mA in standby

Internal self-heating - when temperature drops under 5°C,

coil warms-up to avoid freezing. (standard in 28800 version)

Fail locked version - Deadbolt closed without power

The internal self-heating is standard in 28800, on demand on 28800LC (28800LCW)

Management delegated to electronic control units part no. 54250 and 54255</p> <p>Backset: mm 50</p>	884,00

Art.	Description	€
54250	ELECTRONIC CONTROL UNIT For management of one door Box in grey ABS, dimensions (mm) 240 × 150 × 48 Operating voltage: 10-12 Vac / 65 V.A, 12 Vdc / 3 A Absorbed current: 100 mA in stand-by / 4 A at peak of electromechanical lock Ready for interlocking connection of 2 or more doors Inputs with N.O. contacts for: <ul style="list-style-type: none"> - Opening - Block or Metal Detector - Emergency - Bolt position (opto-electronic) - Door position Outputs: <ul style="list-style-type: none"> - Double switching relay C./N.O./N.C for deadbolt status signalling and for connection to indicator lamps - Fault Alarm Open Collector Contact - Possibility of connection in cascade to interlock several doors with each other (to be connected one for each door to be controlled) - Automatic relocking after 0.5 seconds (selectable at 1 second) upon approach of the door - Automatic relocking after 6 seconds (selectable at 13 seconds) if the door is not opened - Automatic repetition of the command received if not executed in opening with 4 consecutive attempts - Automatic repetition of the command received if not executed in closing with 4 consecutive attempts - Electronic control and protection of non-executed command Use: electronic control unit for timed and/or interlocking management of electromechanical locks Maxima series 25500 and 25511	354,50

54255

ELECTRONIC CONTROL UNIT

841,80

For management of two doors

Box in wall mount ABS, dimensions (mm) 300 x 225 x 130

Operating voltage: 230 Vac (internal transformer)

Same electrical and operational characteristics as item 54250 but for management of 2 doors in interlocking configuration

Use: electronic control unit for timed and/or interlocking management of electromechanical locks Maxima series 25500 and 25511

Art.	Description	€
04925	MOTOR UNIT (SPARE PART) Use: spare motor unit for motorised locks article 25500 and 25511	211,00
		
02250L	TAMPER DEFENDER Matt chromium plated body in hardened steel Dimensions (mm): 90 × 30 × 15 Fixing with through bolt holes from the inside of the door Usable with cylinders which protrude up to 4 mm Use: tamper defender for security cylinders Can be used with all cylinders mounted on Maxima electromechanical locks	80,60
		
02255	ARMATURE PLATE FOR MAXIMA SERIES SOLENOID LOCKS Armature plate in stainless steel with anti-rebound ball-catch (stroke adjustable at exit to 15) - Dimensions (mm): 216 × 30 × 3	48,60
		
05426	MULTI-POLE CABLE Multi-pole cable 2 x 1 sq mm. + 8 x 0.22 with the same colouring as the cable on the electromechanical lock motor unit <u>Per metre</u> Use: cable for systems with electromechanical lock Maxima series 25500 and 25511	9,50
		

ELECTRONIC CONTROL UNITS FOR MAXIMA MOTOR LOCK

LEGENDA

- 1 Solenoid lock
- 2 Striking plate
- 3 Indicator lamps
- 4 Button
- 5 Power supply
- 6 Control unit

LEGENDA

- 1 Solenoid locks
- 2 Indicator lamps
- 3 Control unit
- 4 Power supply
- 5 Desktop console
- 6 Bars
- 7 Sensitive cards
- 8 Lead covers
- 9 Magnetic sensors

SENSITIVE HANDLES AND SENSITIVE BOARDS

Art.	Description	€
	03510 VERTICAL HANDLE Vertical handle with elbows in plastic and central tube in silver anodized aluminium 300 mm. (longer lengths available on request) Elbow with 4 through wires ready for connection to sensitive board Art. 53500 On request: dark brown, black or painted red, yellow, green tube	151,80
	03520 HORIZONTAL HANDLE Horizontal handle with elbows in plastic and central tube in silver anodized aluminium 300 mm. (longer lengths available on request) Elbow with 4 through wires ready for connection to sensitive board Art. 53500 On request: dark brown, black or painted red, yellow, green tube	151,80
	03515 VERTICAL HANDLE Vertical handle entirely in black painted aluminium 395 mm. ready for connection to sensitive board Art. 53501 On request: painted red or yellow	151,80
	03525 HORIZONTAL HANDLE Horizontal handle entirely in black painted aluminium 395 mm. ready for connection to sensitive board Art. 53501 On request: painted red or yellow	151,80
	53500 SENSITIVE BOARD Sensitive board with contact plate for insertion inside tube for handles Art. 03510 and 03520 Dimensions (mm): 120 x 15 x 17 Operating voltage: 12 - 24 Vdc Absorbed current: 10 mA in stand-by / 50 mA with relay activated Relay in switching: 2 A @ 24 Vdc / 1 A @ 120 Vac Sensitivity adjustment trimmer. Indicator LED of sensitivity calibration Stable output contact with relay C./N.O./N.C Note: the sensitivity board is not suitable for operation with Prima and Classica series solenoid locks.	232,40
	53501 SENSITIVE BOARD WITH FRONT PLATE Sensitive board ready for connection to handles Art. 03515 and 03525 Same electrical characteristics as Art. 53500 Front plate in anodized aluminium for insertion in the door profile Front plate dimensions (mm): 200 x 25 x 2 Dimensions (mm): 120 x 15 x 17 Hole for sensitivity adjustment trimmer Hole for sensitivity calibration indicator LED Note: the sensitivity board is not suitable for operation with Prima and Classica series solenoid locks.	260,80
	44000 PUSH BAR SWITCH (NO LATCH) Push Bar type with base in steel and horizontal activation bar in silver anodized aluminium Dimensions (mm): 860 (can be shortened up to 550 mm.) x h 60 bar x 68 thickness Mechanical block with bar pressed for the "open" release lever function Micro-switch with C./N.O./N.C contact rated 24 V / 5 A Hand: reversible Use: electric command for release of security electromagnets	187,30

PROFILO

- ▶ ELEGANT AND INNOVATIVE INDICATOR LAMPS SERIE
- ▶ HIGH EFFICIENCY LED LIGHTING
- ▶ STANDARD RED / GREEN VERSION AS DOOR STATUS INDICATORS
- ▶ WHITE / BLUE VERSION AS LIGHTING SYSTEM OR STEP LIGHT
- ▶ REDUCED DIMENSIONS FOR INSERTION ON NARROW DOORS
- ▶ EXTERNAL INTERCOM VERSION WITH THE SAME DIMENSIONS

PLUS

- ▶ Elegant and innovative indicator lamps serie
- ▶ High efficiency LED lighting
- ▶ Standard Red / Green version as door status indicators
- ▶ White / Blue version as lighting system or step light
- ▶ Reduced dimensions for insertion on narrow doors
- ▶ External intercom version with the same dimensions

**PLUS EXAMPLE**

- 1 Closed door status indicator
- 2 Open door status indicator
- 3 Indicator for lighting and step light

INTERCOM AND INDICATOR LAMP SYSTEMS PROFILE SERIES OP

Art.	Description	€
OP04500 56	ALT / AVANTI INDICATOR LAMP (interchangeable with the Yale-corni traffic lights) Front plate in anodized aluminium with black polycarbonate film External dimensions (mm) 195 x 40 x 3,5 Internal circuit dimensions (mm): 135 x 35 x 25 Operating Voltage 12/24 Vac/dc - 25 mA Red / green high efficiency LED Selection jumper for fixed or flashing light Command for LED selection with N.O. contacts	213,40
OP04500 58	ALT / AVANTI INDICATOR LAMP WITH INTERCOM FACILITIES (interchangeable with the Yale-corni traffic lights) Front plate in anodized aluminium with black polycarbonate film External dimensions (mm) 195 x 40 x 3,5 Internal circuit dimensions (mm): 175 x 35 x 30 Operating Voltage 12/24 Vac/dc - 25 mA Red / green high efficiency LED Selection jumper for fixed or flashing light Command for LED selection with N.O. contacts With loudspeaker and microphone Opening or call push button with N.O. contact To be used with porter 05515 - see page 186	249,00
OP04501 56	RED / GREEN INDICATOR LAMP (interchangeable with the Yale-corni traffic lights) Front plate in anodized aluminium with black polycarbonate film External dimensions (mm) 160 x 40 x 3,5 Internal circuit dimensions (mm): 100 x 36 x 25 Operating Voltage 12/24 Vac/dc - 25 mA Selection jumper for fixed or flashing light Command for LED selection with N.O. contacts	154,10
OP04501 58	RED / GREEN INDICATOR LAMP WITH INTERCOM FACILITIES (interchangeable with the Yale-corni traffic lights) Front plate in anodized aluminium with black polycarbonate film External dimensions (mm) 160 x 40 x 3,5 Internal circuit dimensions (mm): 141 x 37 x 30 Operating Voltage 12/24 Vac/dc - 25 mA Selection jumper for fixed or flashing light Command for LED selection with N.O. contacts With loudspeaker and microphone Opening or call push button with N.O. contact To be used with porter 05515 - see page 186	201,60

Art.	Description	€
05512	ELECTRONIC CONTROL UNIT FOR MULTIPLE INTERCOM CONNECTIONS Container in white ABS Dimensions (mm): 111 x 72 x 29 Connection with screw terminal bloc to 4 outdoor porter intercoms (item 05515, 55012, 55013, 55014, 55033) Connection with 8 pole plug to 3 indoor multiport intercom handsets (05514) Operating voltage: 12 Vdc - 40 mA in stand-by 200 mA in communication Use: the control unit allows 4 outdoor intercom locations and 3 indoor handsets to be managed. The call coming from an outdoor intercom location is signalled on the multiport handsets via an acoustic and visible LED signal. The first handset which is picked up connects to the outdoor calling location, excluding the other two handsets. Further calls during the conversation are signalled on the 3 handsets and placed on hold according to the incoming order of priority.	213,40
05513	INTERCOM HANDSET Body in white colour ABS Intercom connection with standard 5 wires system Operating voltage: 12 Vdc from porter intercom Internal call buzzer at 12 Vdc Direct connection to the calling station N.O. push button for release contact function for one electromechanical lock	92,50
05514	MULTIPORT INTERCOM HANDSET Body in white colour ABS Connection to multiport central control unit item 05512 via 8 pole connector plug Operating voltage: 12 Vdc from intercom control unit Visible signalling of calls via green LED Internal call buzzer at 12 Vdc Push button for selection function of one of the outdoor intercom stations and for "mute" selection signalled by red LED for buzzer deactivation	341,50
05515	PORTER INTERCOM Body in black ABS, external dimensions mm 120 x 56 x 30 Internal circuit dimensions mm 80 x 33 x 16 Operating voltage: 12Vdc - 10mA in stand-by / 100 mA in operation Call push button with blue signalling LED for handset connection Amplified system with loudspeaker and microphone compatible with standard 5 wires intercom systems Separate adjustment of loudspeaker and microphone volumes via trimmers To be used with indicator lamps ref. OP04500 58 and OP04501 58	124,50

APPLICATION EXAMPLE FOR ONE DOOR

APPLICATION EXAMPLE FOR MULTI DOORS

Art.	Description	€
	PUSH BUTTON Front plate in anodized aluminium External dimensions (mm) 105 × 40 x 5 Internal depth dimensions (mm): 23 Release push button with C./N.O./N.C. contact Electrical characteristics: 5A @ 250 Vac - 6 A @ 24 Vdc	
55017	Front plate in silver with "Apriporta" silk screening - red button	91,30
55017V	Front plate in silver with "Apriporta" silk screening - green button	91,30
55017N	Front plate in black with "Apriporta" silk screening - red button	91,30
55017VN	Front plate in black with "Apriporta" silk screening - green button	91,30

	ANTI-VANDAL DOOR RELEASE PUSH BUTTON FOR EXIT Front plate in stainless steel External dimensions (mm) 85 × 85 x 2 - British standard Internal depth dimensions (mm): 28 Release push button with C./N.O./N.C. contact Electrical characteristics: 5A @ 250 Vac - 6 A @ 24 Vdc Round push button in stainless steel with green plastic edge	
55020	"Uscita" silk screen in green	80,60
55020EX	"Exit" silk screen in green	80,60
55020NT	Without writing	80,60

55021	EXIT BUTTON Front plate in stainless steel External dimensions (mm) 85 x 85 x 2 - British standard Internal depth dimensions (mm): 28 Release push button with C./N.O./N.C. contact Electrical characteristics: 5A @ 250 Vac - 6 A @ 24 Vdc Round button in green plastic Silk screen "Press to Exit" in green colour	80,60
-------	---	-------

Art.	Description	€
01780	BOX FOR FLUSH MOUNT/APPLICATION MOUNT BUTTON Body: in silver colour aluminium Dimensions (mm): 85.5 x 85.5 x 38.5 - British standard Use: box for flush or application mount for push button item art. 55020 and 55021	31,20

55023	EXIT BUTTON Front plate in stainless steel External dimensions (mm) 87 × 37 × 3 Internal depth dimensions (mm): 23 Release push button with C./N.O./N.C. contact Blue LED Status indicator Electrical characteristics: 3A @125 Vac-6 A @ 24 Vdc	90,10
-------	--	-------

05820P	TOUCH DOOR OPENER BUTTON ABS body in black External dimensions: 92 mm x 51 mm x 27 mm Resin-coated electronics - IP65 protection rating Operating temperature: -20 / +50 °C Technology: Capacitive Steel Touch Plate Relay output: 2 A at 24 Vdc / 120 Vac Relay duration: in pulse and lock modes Operating states with red/green LED indicators Auditory signal through buzzer with each touch Connection cable: 50 cm Power supply: 12-24 Vdc / 15-24 Vac Current consumption: 65 mA	110,00
--------	---	--------

Art.	Description	€
	MOMENTARY KEY SWITCH FOR EURO-PROFILE CYLINDER	
	Abs body with stainless steel cover plate Dimensions (mm): 110 x 38 x 39 Maintained SPDT micro switch Switch rating: 5A/125VAC Can be used with Euro-profile cylinder dimensions 45 mm. (30 + 10 + 5)	
	55040 <u>Stainless steel cover plate</u> 39,10 55040N <u>Stainless steel cover plate black painted</u> 39,10	
	Use: Key switch to activate electric equipment	
	SURFACE MOUNTING BOX	
	S.a.a. Body Dimensions (mm.): 110 x 38 x 46	
	05540 <u>Silver finish</u> 19,00 05540N <u>Black finish</u> 19,00	
	Use: Surface or mortice box for art. 55040	
	MOMENTARY KEY SWITCH FOR ROUND CYLINDER	87,70
	Brass body Dimensions (mm) : 30 x 17 Release push button with C./N.O./N.C. contact, Switch rating: 5A / 125VAC	
	Use: Key switch to activate electric equipment	

Art.	Description	€

55042FC

55043FC

CYLINDER MORTICE CASE WITH MICRO-SWITCH

Front plate in stainless steel mm 160 x 25 x 3

Body in anodized aluminum mm 30 x 17

Output contact C./N.O./N.C - mono stable 5A / 125Vac

Adjustable backset from 20 to 90mm

Short front plate for Euro-profile cylinder

94,80

Short front plate for Italian oval cylinder

106,70

Use: Housing for replacement of an existing mechanical mortice lock to cover the mounting holes and permitting triggering of an electronic device by means of a standard Euro-profile cylinder (or Oval cylinder)

Example: It replaces an existing mechanical mortice lock and activate, using the existing cylinder, a magnetic lock as 147 series

CYLINDER MORTICE CASE WITH MICRO-SWITCH

Front plate in stainless steel mm 348 x 22 x 3

Body in anodized aluminum mm 30 x 17

Output contact C./N.O./N.C - mono stable 5A / 125Vac

Adjustable backset from 20 to 90mm

55042FL

55043FL

Long front plate for Euro-profile cylinder

94,80

Long front plate for Italian oval cylinder

106,70

Use: Housing for replacement of an existing mechanical mortice lock to cover the mounting holes and permitting triggering of an electronic device by means of a standard Euro-profile cylinder (or Oval cylinder)

Example: It replaces an existing mechanical mortice lock and activate, using the existing cylinder, a magnetic lock as 147 series

05502PD

Art.	Description	€
05257	INTERCOM INTERFACE FOR ELECTRIC LOCKS ABS enclosure dimensions: mm mm 97 x 141 x 22 Input power: 9 - 12 Vac Output: electrically operated lock activation from relay with free contact C/NO/NC timed at 5-10-15-20 s Output fault signalling for intercom button stuck: relay with voltage free contact C/NO. Use: allows, in addition to door relay function in installations equipped with electronic locks, to protect the lock if the intercom button is constantly pushed, disabling all command devices and reporting the failure	106,70
05258	RELAY CIRCUIT FOR INTERCOM OPENING COMMAND Circuit dimensions (mm): 58 x 15 x 18 Input operating voltage: 9 - 12 Vac/Vdc Output: relay with dry contact C./N.O./N.C Use: this circuit allows the 12 Vac contact to be transformed for activation of the traditional electromechanical lock which comes from the intercom system with N.O. dry contact necessary for activation of the solenoid lock opening command. Can be used with all electromagnets in the Safety series, all solenoid locks in the Quadra series (in combination with their control units), the Prima series, Classica, Maxima series (combined with their control units)	48,60
05259-12 05259-24	MAGNETIC SENSOR CONTACT CIRCUIT ABS box dimensions: 102 mm x 50 mm x 27.5 mm Input power supply: 12 or 24 Vdc Output: relay with clean C./N.A./N.C. contact Relay contact current: 10 A - 28 Vdc/120 Vac Application: This circuit allows transforming the N.A. contact of the magnetic sensor into a clean N.A. relay contact necessary to activate a signal. <u>Power supply at 12 Vdc</u> <u>Power supply at 24 Vdc</u> Compatible with all electro-pistons of the Quadra, Prima, Classica, Maxima series, or with magnetic sensors art. 02221 and 02223	26,10 26,10
05260	TIMING CIRCUIT FOR AUTOMATIC DOORS Circuit dimensions (mm): 71 x 48 x 16 Box in ABS dimensions (mm) 120 x 56 x 30 Input operating voltage: 12/24 Vac/Vdc Output: relay with dry contact C./N.O./N.C Activation delay timing relay adjustment from 0 to 60 seconds Activation timing relay adjustment from 0 to 60 seconds Use: this circuit allows a security electromechanical lock from the Quadra, Prima, Classica, Maxima series to be used with motorisation of door opening. Confirmation of latch opening on the electromechanical lock generates, after a pre-established time, activation of a pulse contact on the relay for opening of the motorisation	93,70
REL12V	SERVICE RELAY Relay with polarized activation coil at 12 Vdc / 90 mA Double changeover C./N.A./N.C. - Contact rating 10 A at 250 Vac	42,70
REL24V	Relay with polarized activation coil at 24 Vdc / 50 mA Double changeover C./N.A./N.C. - Contact rating 10 A at 250 Vac	42,70

Art.	Description	€
02221	MAGNETIC SENSOR FOR MORTICE FIXING Magnetic door alignment verification sensor Body in threaded brass Brackets in black ABS Dimensions of the bracket (mm): 50 x 20 x 3 Internal depth dimension (mm): 28 Magnet and sensor adjustable in extension 2 wires connection N.O. output contact (N.C. with magnet) Maximum rating: 200 Vdc / 500 mA (10 VA max) on resistive load Operating temperature: -5/+ 50 °C Operating range: 12 mm.	67,60
		
02223	MAGNETIC SENSOR FOR SURFACE FIXING Magnetic door alignment verification sensor Support for surface fixing in white plastic container Dimensions of the bracket (mm): 60 x 16 x 5 2 wires connection N.O. output contact (N.C. with magnet) Maximum rating: 200 Vdc / 500 mA (10 VA max) on resistive load Operating temperature: +5/+40 °C Operating range: 40 mm.	23,70
		
02225	DOOR MECHANICAL SENSOR Mechanical contact for door status signalling Body dimensions (mm): 28 x diameter 20 Front plate in stainless steel (mm) 42 x 23 x 3 Body in oxidised aluminium - anodic build-up oxidation Ball in hardened steel Ball body adjustment of 10 mm. C. / N.O. / N.C. output contact Maximum rating: 1.5 A - 250 V Supplied with 15 cm of three wire cable	43,90
		
08700	ANTI-REBOUND BALL-CATCH Ball with spring adjustment for insertion on swing doors. Body in nickel plated steel Ball front plate and strike in stainless steel Front plate dimensions (mm): 55 x 25 x 3 Depth of the ball body (mm): 30 Use: anti-rebound system for swing doors with electronic locks with relocking via alignment sensor. Ideal for heavy doors where realignment is made difficult by excessive rebounds of the door during approach which may prejudice the proper operation of the electromechanical lock.	42,70
		

CABLE COVERS - ANTI-REBOUND BALL-CATCH

Art.	Description	€
	CONCEALED CABLE COVER Flexible spring in chromium plated steel with internal diameter of 10 mm. <u>Box for insertion into the door profile in chromium plated steel</u> <u>Box for mortice fixing dimensions (mm): 260 x 24 x 16</u> Use: concealed cable cover for direct passage of the wires between the door and the frame.	40,30 52,00
	DOOR LOOP WITH CABLES AND PLUG-IN CONNECTORS Flexible spring steel with internal diameter of 10 mm Box for mortice fixing dimensions (mm): 260 x 24 x 16 Supplied with 2 cables 1Mt long and 4,5 mt on the other side - 8 poles plug-in connector. 8 wires 0,22mm diameter The 08601 door loop, mounted in the hinge of the door, is completely hidden when the door is in the closed position	62,80
	CONCEALED CABLE COVER Flexible spring in chromium plated steel with internal diameter of 11 mm. Front plate in black painted steel. Tube length (mm) 88 Use: concealed cable cover for direct passage of the wires between the door and the frame	30,80
	CABLE COVER ONLY FLEXIBLE Flexible spring in chromium plated steel with external diameter of 9,5mm and internal diameter mm 7. Length (mm) 214 Use: external cable cover for direct passage of the wires between the door and the frame	58,10
	CABLE COVER ONLY FLEXIBLE Flexible spring in chromium plated steel with external diameter mm 14 and internal diameter of 10 mm. <u>Length (mm) 250</u> <u>Length (mm) 420</u> <u>Length (mm) 600</u> Use: external cable cover for direct passage of the wires between the door and the frame	34,90 39,80 39,80
	CABLE COVER ONLY FLEXIBLE Flexible spring in chromium plated steel with fixing metal terminals Terminal dimension (mm): 35 x 30 x 13. Internal diameter (mm) 8 Length (mm) 430 Use: external cable cover for direct passage of the wires between the door and the frame	29,60
	CABLE COVER ONLY FLEXIBLE Flexible spring in chromium plated steel with fixing terminals in aluminium alloy Terminal dimension (mm): 47 x 39 x 22. Internal diameter (mm) 8 <u>Length (mm) 500</u> <u>Length (mm) 710</u> Use: external cable cover for direct passage of the wires between the door and the frame	41,50 46,20
	TAPPET CONTACTS - ELECTRIC CONTACT Pair of pressure tappet contacts for electric lock (not electronic lock or solenoid bolt) Voltage: 12/24 Vac/dc - Max current: 5A Front plate in black plastic, dimensions mm 47 x 16 x 4	13,00

Art.	Description	€
	BOX FOR PUSH BUTTON ALARM ACTIVATION WITH MANUAL RESET Container in ABS Dimensions (mm): 99 x 95 x 43 C./ N.O (N.C. on demand) internal switching contact Manual rearming of the contact IP rating: IP41 Transparent Plexiglas cover for protection of the box's activation push button	
05110G	<u>Yellow box</u>	29,90
05110R	<u>Red box (for fire detection systems)</u>	29,90
05110V	<u>Green box (for escape doors systems)</u>	29,90
	Use: pressing the plastic front plate activates switching of the electrical contact Compliance: EN54-11 (05110R)	

05210	TRANSFORMER FOR MAXIMA SERIES MOTORISED LOCKS Dimensions (mm): 110 x 75 x 68 Primary operating voltage: 230 Vac - 50/60 Hz. Secondary operating voltage: 10 Vac Power: 65 V.A. - Isolation class: II Carter in self-extinguishing plastic material Terminal block with screw connectionse Use: power transformer to alternating current for electronic command unit Art. 54250 (spare for Art. 54255) Maxima series	56,90
-------	---	-------

05211	TRANSFORMER FOR OMNIA SERIES ELECTRIC STRIKES Dimensions (mm): 70 x 58 x 40 Primary operating voltage: 230 Vac - 50/60 Hz. Secondary operating voltage: 12 Vac Power: 10 V.A. - Isolation class: II Carter in self-extinguishing plastic material Terminal block with screw connections Use: power transformer to alternating current for Omnia series electric strikes	39,80
-------	--	-------

05301C	WEEKLY PROGRAMMABLE TIMER WITH CALENDAR 230 Vac power Output: switching relay with C./N.O./N.C contacts Relay rating: 250 Vac / 16 A - 12 Vdc / 4 A Internal lithium battery with charge reserve for 5 years without power Preset date and time Automatic switch for daylight savings time Weekly and daily programming Time programming by hour and minutes Programming key and saving of memorised data Use: weekly timer for automatic opening and relocking of electromechanical locks according to preset times. For use with electromagnets, electric strikes in continuous current and solenoid locks.	298,80
--------	---	--------

05310	POWER SUPPLY WITH TIME DELAY Grey ABS Box Dimensions: 129 (L) x 73 (W) x 50 (D) mm Input Power: 100-240 Vac, 50/60 Hz Output voltage 1: 1.5A/12 Vac (Timer) (for both fail safe and fail secure electric locks) Output voltage 2: 1A/12 VDC Adjustable time: 0 ~ 45 seconds Weight: 0.22 kg N.O.input for push button	142,30
-------	---	--------

Art.	Description	€
	SWITCHING POWER SUPPLY FOR BACKUP BATTERY Wall mount container in inspectable grey ABS Dimensions (mm): 300 x 225 x 130 (mm 395 x 310 x 130 for item 05326A) Regulated power supply with switching technology Input in alternating current: 230 Vac Output for battery charging with control circuit for charge voltage Overload protection Short circuit protection	
05312A	Output : <u>12 Vdc (13,8 Vdc) / 3 A</u>	280,40
05325A	<u>24 Vdc (27,6 Vdc) / 3 A</u>	296,40
05326A	<u>24 Vdc (27,6 Vdc) / 10 A</u>	307,80

	SWITCHING POWER SUPPLY Container in metal with ventilation holes Regulated power supply with switching technology Input in alternating current: 230 Vac Output for battery charging with control circuit for charge voltage Overload and short circuit protection	
05320A	Output: <u>12 Vdc (13,8 Vdc) / 3.0 A - dimension mm 130 x 99 x 38</u>	153,90
05320XM	<u>12 Vdc (13,8 Vdc) / 16 A - dimension mm 194 x 55 x 25</u>	183,50
05330XS	<u>24 Vdc (27,6 Vdc) / 1,1 A - dimension mm 91 x 52 x 29</u>	159,60
05331A	<u>24 Vdc (27,6 Vdc) / 3 A - dimension mm 159 x 99 x 38</u>	169,90
05332A	<u>24 Vdc (27,6 Vdc) / 10 A - dimension mm 215 x 115 x 50</u>	183,50

	SWITCHING POWER SUPPLY Abs container for Din rail 230 Vac - 24 Vdc / 1 A Power Supply Dimensions: 130 x 99 x 38	
05320BD	<u>230 Vac - 12 Vdc / 1,5 A Power Supply</u>	153,90
05330BD	<u>230 Vac - 24 Vdc / 630 mA Power Supply</u>	153,90

	BATTERIES 12 Vdc rechargeable lead batteries	
00112	Power: 1.2 Ah for Art. 52002 (mm 97 x 42 x 53)	43,90
00212	Power: 2.2 Ah (mm 177 x 60 x 35)	47,90
00712	Power: 7 Ah (mm 151 x 94 x 65)	57,60

05346A	PLUG IN POWER SUPPLY Power: 100 - 240 Vac / 12Vdc - 2A Power supply for console 54614B	11,00
--------	---	-------

Art.	Description	€
55414 	FOUR CHANNEL RECEIVER Container in grey or black ABS Container size: 200 x 75 x 40 Circuit dimensions (mm): 58 x 58 Operating voltage: 12/24 Vac/Vdc Current: 50 mA max with relays active Frequency 433.92 MHz Programmable codes: 199 different codes with standard 12-64 bit or Rolling Code Output: via C./N.A relay contacts in pulse, bistable or timed bistable mode 1 C./N.O./N.C switching relay with 5A rating 171 C./N.O contact relays with 1A rating Range: 50/80 metres with wire antenna supplied in the package Features: four channel self learning receiver for management of four separate opening commands (example: separate opening of the two doors in any interlocking system and two single doors)	106,70
55416 	TWO CHANNEL RECEIVER Container in grey or black ABS Container size: 200 x 75 x 40 Circuit dimensions (mm): 58 x 58 Operating voltage: 12/24 Vac/Vdc Current: 50 mA max with relays active Frequency 433.92 MHz Programmable codes: 199 different codes with standard 12-64 bit or Rolling Code Output: via C./N.A relay contacts in pulse, bistable or timed bistable mode 1 C./N.O./N.C switching relay with 1A rating 1 C./N.O contact relays with 1A rating Rating: 50/80 metres with wire antenna supplied in the package Features: two channel self learning receiver for two separate opening commands (example: separate opening of the two doors in any interlocking system)	97,20
55417 	SINGLE CHANNEL MINI RECEIVER Container in black ABS Container size: 70 x 46 x 21 Circuit dimensions (mm): 47 x 26 Operating voltage: 12/24 Vac/Vdc Current: 50 mA max with relay active Frequency 433.92 MHz Programmable codes: 23 different codes or Rolling Code Output: via C./N.A relay contacts in stable or bistable mode Rating: 50/80 metres with wire antenna supplied in the package Features: single channel self learning receiver for opening command of a door	84,70
55418 	SINGLE CHANNEL MINI RECEIVER Container in black ABS Container size: 77 x 37 x 21 Circuit dimensions (mm): 47 x 26 Operating voltage: 12/24 Vac/Vdc Current: 50 mA max with relay active Frequency 433.92 MHz Programmable codes: 23 different fixed codes or Rolling Code Output: via C./N.A relay contacts in stable or bistable mode Rating: 50/80 metres with wire antenna supplied in the package Features: single channel receiver for opening command of a door Use: allows remote control in an extremely simple way of any electromechanical lock without the aid of an ulterior supplementary power supply. For this reason it can also be applied to any already installed electromechanical lock.	84,70

Art.	Description	€
	TWO CHANNEL REMOTE CONTROL Body in silver and black polycarbonate Dimensions (mm): 53 x 26 x 14 Red indicator LED for pressing of the buttons Operating voltage: 6 V alkaline battery type 11A Frequency 433.92 MHz Programming: self learning and auto generating of the codes	
55420	Standard encoding up to 96 bit	49,80
55420RC	Rolling Code Encoding	56,90
	Features: remote control with two separate channels, ideal to operate individually on the opening commands of two different doors Use: for use with all 554 series receivers	

	FOUR CHANNEL REMOTE CONTROL Body in polycarbonate Dimensions (mm): 63 x 36 x 14 Red indicator LED for pressing of the buttons Operating voltage: 6 V alkaline battery type 11A Frequency 433.92 MHz Programming: self learning and auto generating of the codes	
55421	Standard encryption up to 96 bit	54,50
55421RC	Rolling Code Encoding	61,70
	Features: remote control with four separate channels, ideal to operate individually on the opening commands of four different doors Use: for use with all 554 series receivers	

REMOTE CONTROL - APPLICATION EXAMPLE

Single channel mini receiver 55418 for electric locks

NEW

57520RF

Lo.Ra. RADIO TRANSMITTER MODULE

119,60

Black ABS box, dimensions: 67 x 50 x 20 mm
 Power supply: 12-18 Vac - 12-24 Vdc
 Operating temperature: -20 / +70°C
 Bicolor red/green LEDs for displaying operational statuses
 Radio frequency: 868 MHz using Lo.Ra. technology
 Average operating range: 1,000 meters
 Inputs: 4 with Normally Open (N.A.) contacts
 Radio communication encryption security
 Operation: The 57520RF device is a transmitter capable of ensuring long-distance communication, high immunity to interference, high sensitivity, and reduced energy consumption. The transmitter must be paired with the Art. 57521RF receiver, which provides outputs to activate remote loads, offering users multiple solutions; ideal for long-distance activation and control applications.

NEW

57521RF

Lo.Ra. RADIO RECEIVER MODULE

166,90

Black ABS box, dimensions: 67 x 50 x 20 mm
 Power supply: 12-18 Vac - 12-24 Vdc
 Operating temperature: -20 / +70°C
 Bicolor red/green LEDs for displaying operational statuses
 Internal LED and dip switch for selecting relay contact mode: impulse, timed, or bistable.
 Radio frequency: 868 MHz using Lo.Ra. technology
 Average operating range: 1,000 meters
 Outputs: 4 Normally Open (N.A.) contacts from electronic relay (max 400 mA @ 60Vdc)
 Operation: The 57521RF device is a receiver capable of ensuring long-distance communication, high immunity to interference, high sensitivity, and reduced energy consumption. The receiver, paired with the transmitter Article 57520RF, allows for the activation of the corresponding OUT 1-4 outputs and the control of remote loads, offering users multiple solutions; ideal for long-distance activation and control applications.

APPLICATION SAMPLE

1 Transmitter module - 4 Receiver module

**APPLICATION SAMPLE**

1 Receiver module - 4 Transmitter module

ACCESS

- ▶ ACCESS CONTROL SYSTEM
- ▶ CODE KEY PAD, MAGNETIC CARDS READER AND RFID
- ▶ PEOPLE COUNTER SYSTEM FOR LIBRARIES, MUSEUMS, SHOPPING CENTERS
- ▶ STAND-ALONE VERSION FOR INDIVIDUAL APPLICATIONS
- ▶ ON LINE VERSION WITH PC MANAGEMENT FOR MULTI DOORS SYSTEMS

PLUS

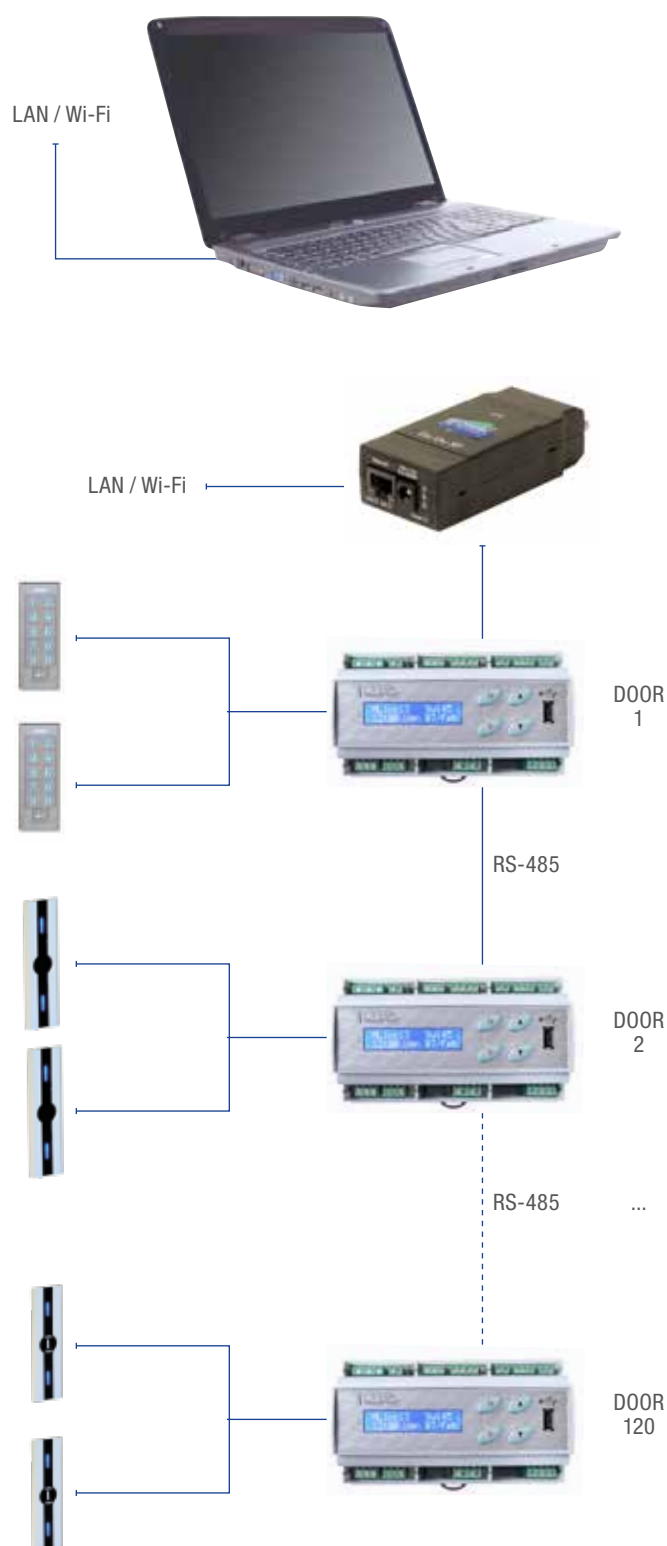

- ▶ Independent or connectable to a PC control unit
- ▶ Users configuration from the control unit or the PC
- ▶ Usb port for direct events download on Usb key
- ▶ 2 remote reading devices operating on the same door (readers/key pads)
- ▶ Fixing on DIN bar switchboard

TYPICAL APPLICATION WITH PC OPERATING SYSTEM

SERIAL CONFIGURATION RS-485

SERIAL CONFIGURATION RS-485 / LAN - WiFi

PLUS EXAMPLE

- Connection on serial network
- Connection on serial network/ethernet
- Up to 120 manageable doors
- Up to 2000 manageable users for each door

Art.	Description	€
------	-------------	---

55611NET

MODULAR STANDALONE/NET MANAGEMENT ELECTRONICS

486,10

For one door

Electronics that can be managed in stand alone mode for a single independent door and in an RS-485 serial network for the connection of up to 120 doors controlled by PC through special application software, Art. 55623.

Connection to 2 peripheral reading devices (input/output) including magnetic card readers, transponder readers or code keypads. Gray ABS housing, 160 x 95 x 65 mm for attachment to DIN bar. Remote distance from the peripheral reading devices: up to 10 m with flat cable and up to 500 m with connection of the peripheral devices (readers and keypads) through dedicated RS-485 serial line (cable 4). Main power supply: 230 Vac

Internal power supply with battery charger, plug, 12 V/1.2 A external Art. 00112

Power supply output 12 Vdc - 0.5 A max for electric locks

Electric lock command: C./N.O./N.C. relay, time can be set from 1 to 99 seconds or bistable for operation of the electric lock

N.O. input, opening from button.

N.O. input for door sensor.

N.O. input for lock status.

N.O. input for enabled codes block.

Alarm relay that can be activated through door sensor by forced opening (can be deactivated by the software from the menu). Saving of users on solid-state memory on Eeprom (minimum retention 10 years)

Important: the data present in the memory can be copied and transferred to any system extensions if installed in stand alone mode. Real Time Clock (RTC) circuit for date and time management. LCD 16 x 2 display, with blue backlight for the programming and display of the system's operational states. 4-key membrane polycarbonate keyboard for programming with the following functions: Up - Down - Program - Enter. Network port: Net485 for connection and management by PC. USB port for downloading the data on the events and user list present in the memory on a USB drive. 171 Ability to save pre-existing magnetic cards coded in the second track such as, for example, credit cards, tax code cards or cards belonging to other access control systems on standard ISO 2 (if connected to a card reader Art. 55613 or 55613AL to be ordered separately). Max reading of the first 10 characters.

171 Ability to save PIN codes in ISO 2 emulation (if connected to the code keyboard Art. 55612 or 55612SS to be ordered separately).

Functions:

- Management of 2000 users with different cards or codes
- Access to all functions by local keyboard
- Programming of user codes through master code
- Setting of Net485 network parameters
- Entering of address number for connection to PC
- Programming of cards / transponders / codes
- Variable length access codes with a maximum of 10 digits
- Programming for 3 distinct time slots for each user. Selection of user access
- Prohibition by day of the week
- Programming of debit cards
- Entering of users with expiration date
- Deletion of user with possession of a title
- Deletion of the entire user list
- Date and time setting
- Lock opening time selection
- Anti pass-back selection with the use of 2 reading peripheral devices
- Alarm setting selection after 3 attempts or for forced door
- Reader block setting selection - Display of user list
- Direct download of the last 500 events and user list on a USB key

Art.	Description	€
	55613NET ISO 2 MAGNETIC STRIP CARD READER ABS housing body Dimensions: 100 x 34 x 26 mm. Power supply and commands: from PC through USB port. Red and green two-color LED for the display of the operational states Use: magnetic strip card reader for the saving and reading of the cards by PC. Packaging: provided with USB connection cable	332,00
	55614NET USB TRANSPONDER READER ABS housing body. Dimensions: 115 x 75 x 25 mm. Power supply and commands: from PC through USB port Red and yellow LED for the display of the operational states. Operating frequency: 125 kHz (integrated antenna). Use: RFID tag and card reader for the saving and reading of the cards by PC. Packaging: provided with USB connection cable	367,50
	55616NET USB - RS-485 CONVERTER ABS body. Dimensions: 60 x 38 x 20 mm. Power supply: 5 Vdc / 60 mA from PC through USB port LEDs for the display of the operational states. USB 2.0 compatibility. Provided with adapter from DB9 connector to screw connector for connection to the RS-485 network. Use: USB - RS-485 serial port connector necessary for connection of the serial line to the PC, which only has USB ports Packaging: provided with USB connection cable, 80 cm long.	225,30
	55618NET TTL - RS-485 CONVERTER The serial port converter allows the connection of the different readers to the MultilinkNet electronic by means of a 4 poles cable for a max. length 500Mt	59,30
	05913 SERIAL RS232 - ETHERNET CONVERTER Container in black ABS Dimensions (mm): 100 x 42 x 25 DB 9 pole connector for serial RS232 - 422 - 485 serial line selectable via dip switch 8 pole plug connector for connection to the network Operating voltage: 12 Vdc/1A from included power supply Use: The serial converter allows connection of devices (such as people counters) equipped with IP addresses via an Ethernet network. This way the people counter can be interrogated even from a remote PC via the local network or the internet.	580,90

REMOTE EASY ACCESS

Doora...
No key, No stress!

www.doora.it

Which advantages?

Being a GSM system, there is no risk of informatic hacking.
It can be installed even in spaces with no internet connection.

The access can be **managed remotely from everywhere in the world and without internet connection.**

L'accès peut être **géré à la distance partout dans le monde** sans connexion internet.

System can manage **up to 18 doors** in one single connection/PIN.

It can authorize **single time slots.**

Zero costs of maintenance/management.

GSM telephonic door opener ▼
Operation mode by SIM card activated by portable or fixed phone

Exits ▼
Two exit contacts, manageable direct or bistable

Programming ▼
By Pc or App

Users quantity ▼
The internal memory can save up to 1.000 users

Confirmation notifications ▼
Received command confirmation message forward

SMS forward message if the door is opened ▼
Function can be activated by App or Software

Free of charge App for the SMS commands management ▼
Can be downloaded on the Apple Store or Google Play.

GSM radio version ▼
Functioning extension with radio modules and peripheral devices

Exits activation ▼
By call or code if combined with keyboards

Supplementary exits ▼
Can be combined with up to 18 supplementary radio modules for direct activation or by keyboard

App Opera-57501

PLUS EXEMPLE

- ▶ Easy installation and use
- ▶ Manageable from any telephone device
- ▶ Operations can be activated with a simple call or by SMS
- ▶ SMS answer/confirmation

For Residential Use

Doora is the suitable system for those who want to manage their apartment remotely, at any time and from anywhere.

It is ideal for remote activation of door openings, automation of automatic gates, activation and deactivation of alarm systems, turning on lights, activating the air conditioner, or garden irrigation system.

For B&B

If you own a B&B and want to solve the issue of key delivery to your guests and cleaning staff, DOORA is the system for you.

Thanks to the DOORA system, your guest (or service personnel) can access your B&B with just **two simple steps**:

1. With a phone call, they can open the gate/door of the property.
2. Once at the front door, they just need to enter a code to gain entry

With DOORA, you will solve the key delivery problem and ensure the security of your guests, preventing the possibility of keys being copied for illicit reasons.

Art.	Description	€
	<p>DOORA GSM TERMINAL White ABS body for wall mounting Dimensions: mm. 160 x 100 x 43 Power supply: 12/24 Vdc – 12/18 Vac Absorption: 90 mA at 12 Vdc</p>  <p>LED signalling on the front plate of the box for:</p> <ul style="list-style-type: none"> - Green colour LED for the system status visualisation - Yellow colour LED for the active/faulty connection - Red colour for exit 1 active visualisation - Red colour for exit 2 active visualisation <p>Internal GSM module UMTS – 3G Slot for the SIM card insertion (on demand external antenna for a USB connector type B for the configuration and the firmware update Internal connections by screw clamps Can be matched by radio to keyboards, relay modules and other expansion devices Relay exit 2 C:/N.O./N.C. 57515RF-868	RADIO REPEATER MODULE Dark gray ABS box body, dimensions: mm 66 x 50 x 20 Power supply: 12 Vac/dc - 24 Vdc Bicolor red/green LED for radio connection display RS-485 for connection with the keypad 868 MHz radio connection with GSM terminal item 57501RF-868 Maximum range: 30 meters in an open area Operation: radio signal repeater in conjunction with the keypad with code 57512RF-868, 57512SRF-868, 57513RF-868, to be connected via RS-485 cable to the keypad when installed far from the GSM control unit.	177,80
57516RF-868	RELAY MODULE WITH WIRELESS CONNECTION White ABS box body, dimensions: mm 66 x 50 x 20 Power supply: 12 Vac/dc - 24 Vdc Bicolor red/green LED for operational status display Relay output C./N.A./N.C. (12 V / 2 A max) 868 MHz radio connection with GSM terminal item 57501RF-868 Maximum range: 30 meters in an open area Setting of 16 addresses with internal dip switches Relay activation via App or SMS Operation: the relay module is remotely activated by the GSM control unit item 57501RF-868, allowing for home automation management. Through the doora App, functions such as door opening can be activated remotely. Dedicated to use with items 5156218-66, 57512RF-868, 57313RF-868, it allows the management of up to 16 additional keypads. There are no wired connections between the module and the GSM control unit, as transmission occurs wirelessly.	177,80
57517	ADDITIONAL EXTERNAL GSM ANTENNA Height: 78 mm Antenna cable length: 2.5 m. Base with adhesive attachment Application: additional antenna to be paired with items 57501 and 57501RF-868 in cases where the control unit is installed in a position where it does not receive sufficient GSM signal.	59,30
00661A	TWISTED PAIR CABLE Shielded twisted pair cable with two pairs of wires for binary data transmissions. Application: for connecting devices on the Doora serial line.	8,30
57518	GSM / UMTS MODEM Blue ABS box body Dimensions: mm 80 x 70 x 30 Mounting system: wall-mounted or on DIN rail Operating frequencies: GSM, GPRS, and UMTS Power supply: 6 - 21 Vdc / 2A peak - 250 mA in standby (supplied with power adapter) Interface: RS232 serial port and USB 2.0 SIM card slot SMA female antenna connector. Supplied with antenna with a cable length of 2.5 m. Supplied with USB cable Operation: GSM modem for connecting to a PC for managing the Doora system through software application.	498,00

DOORA SOFTWARE

237,10

Application software for the doora system management by local PC through USB door or remotely through GSM modem item code 57518.

Operative system Microsoft Windows 7.1 and those following

Protection by password

Administrator creation

Door opener creation/ accommodation facility

Introduction, Modification, Deleting of single users

User introduction with:

- Name
- Phone number
- Date and time of arrival and departure
- Doors selection to authorize by call or Pin code
- Automatic or manual PIN code creation
- Unlimited users openings (for example for maintenance)
- Availability by date
- Configuration and data base storage on DropBox cloud

Art.

Description

**DOORA APP**

App for the doora system management, remotely by handphone

Operative system Apple iOS and Android

Protection by password

Date base creation

Administrator creation

Door opening/accommodation facility creation

Introduction, Modification, Deleting of single users

User introduction with:

- Name
- Date and time of arrival and departure
- Doors selection to authorize by call or Pin code
- Automatic or manual PIN code creation
- Unlimited users openings or xxxxxx (for example for maintenance)
- Availability by date
- Configuration and data base storage on DropBox cloud

Art.	Description	€
	ENERGY SAVING MANAGEMENT UNIT ABS box dimensions: mm 111 x 72 x 29 Power supply: 12-24 Vdc / 12-18 Vac Current absorbed: 100 mA max Real-time clock for battery-backed date and time maintenance Power relay output for current enablement 868 MHz radio circuit Number of relay outputs C./N.A./N.C (1A at 30 Vdc): - User room enablement input - Enable/disable air conditioning system contact Number of Open Collector Outputs (100 mA max 60 Vdc): - Malaise alarm output - "Low battery" warning for radio sensors - "Extended door opening" output Number of inputs for wired sensors and/or auxiliary contacts: - Malaise alarm activation (e.g., bathroom pull cord) - Magnetic door status sensor (N.C when the door is closed) - Magnetic window status sensor (N.C when the window is closed) - Presence sensor (N.C contact at rest) In the radio version, up to 16 devices per channel can be associated. Channel 1: Radio magnetic sensor Art. 57532ARF for "door status" Channel 2: Radio magnetic sensor Art. 57532ARF for "window status" Channel 3: Radio sensor Art. 57533ARF and/or 57534ARF for "person presence"	
57530A	<u>Version with wired connection</u>	143,50
57530ARF	<u>Version with 868 MHz radio connection</u>	239,20

Operation: A unit that allows automatic recognition of the presence of people inside the apartment for the consequent activation/deactivation of electrical power on specific devices (e.g., lights and air conditioner). It can also be installed independently of the Doora system (e.g., in facilities managed with keys or other systems).

	WIRELESS MAGNETIC SENSOR Dimensions: 135 x 35 x 34 mm Detection: Reed contact Power supply: AA lithium battery, 3.6 V, 2,200 mAh (included) Radio frequency: 868 MHz Consumption: 12 µA Self-learning storage: present Red LED for alarm indication Double event transmission (DTE): present Radio range: up to 200 m in open air Transmission type: alarm, tampering, battery status Operating Temperature: -5 ÷ +40 °C	
57532ARF	<u>Brown color</u>	99,80
57532ABRF	<u>White color</u>	99,80

Operation: Magnetic contact for indoor opening protection of doors and windows. The transmitter module, housed in a plastic container, has an anti-opening microswitch and a button for memorization. Can be paired with the radio control unit item 57530ARF.

57533
57533ARF

WIRELESS PRESENCE DETECTOR

Detection: Dual PIR + 10.525 GHz microwave sensor
 Dimensions: 71 x 102 x 56 mm
 Power supply: 3.6 V lithium battery, 2,200 mAh (included)
 Standby consumption: 12 μ A (during detection: 25 mA)
 Horizontal coverage: 90°
 Detection range: 12 meters
 Radio range: up to 200 meters in open air
 Radio frequency: 868 MHz
 Transmission type: alarm, tampering, battery status
 MW sensitivity: adjustable via trimmer
 Operating temperature: +5 °C ÷ +40 °C

Wired version868 MHz radio version

71,60
95,40

Operation: Indoor dual-technology radio presence detector, microwave plus infrared. Equipped with a joint for wall or ceiling mounting with metal locking. Protected against tampering.

57534
57534ARF

WIRELESS PRESENCE DETECTOR

Detection: Dual PIR + 10.525 GHz microwave sensor
 Dimensions: \varnothing 129 x 43 mm
 Power supply: 3.6 V lithium battery, 2,200 mAh (included)
 Standby consumption: 12 μ A (during detection: 25 mA)
 Detection area: elliptical
 Detection range: 12 m
 Radio range: up to 200 m in open air
 Radio frequency: 868 MHz
 Transmission type: alarm, tampering, battery status
 MW sensitivity: adjustable via trimmer
 Operating temperature: +5 °C ÷ +40 °C

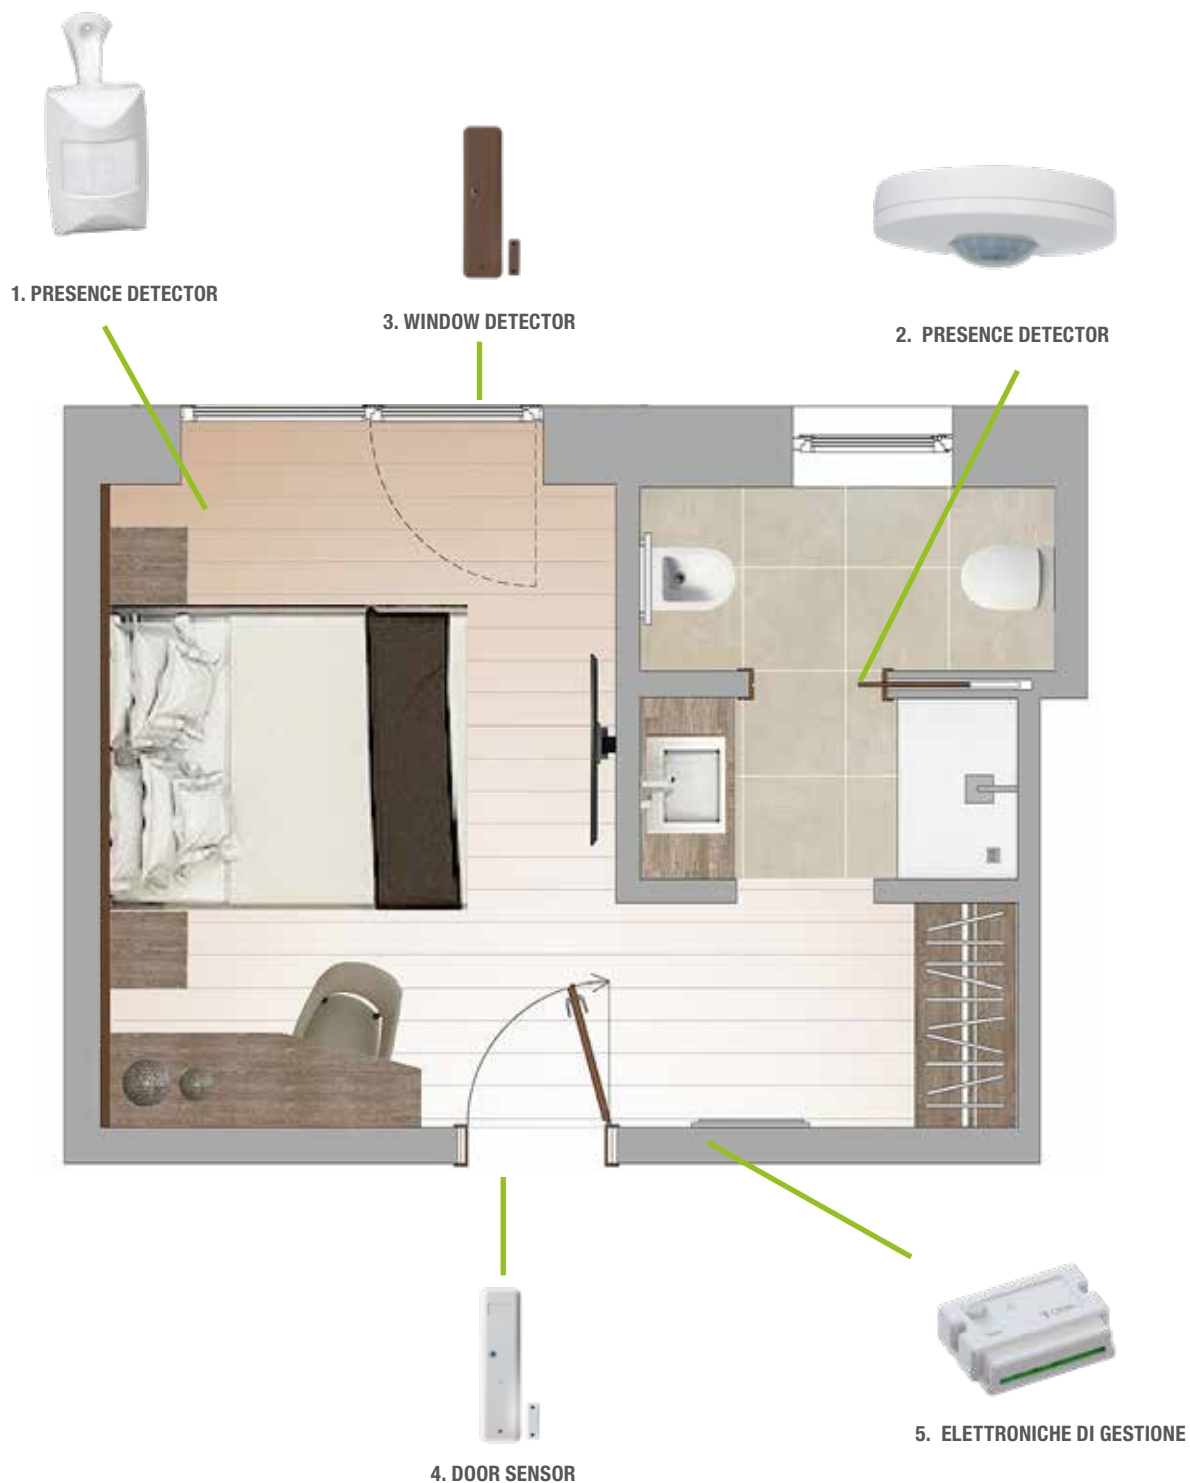

Wired version868 MHz radio version

71,60
95,40

Operation: Indoor ceiling-mounted wireless presence detector. Composed of a PIR and a 10,525 GHz planar antenna microwave. Coverage range of 11.4 m when installed at a height of 4 m; decreasing the mounting height reduces the coverage axis. Can be paired with the universal 8-channel radio receiver item 57531RF. Protected against tampering.

APPLICATION EXAMPLES

LEGENDA

- 1 Room volumetric detector
- 2 Bathroom volumetric detector
- 3 Window magnetic detector (it deactivates air conditioning)
- 4 Activation button (optional)
- 5 Entry door magnetic detector
- 6 Control board

05912WEB

VIEWING/DOWNLOADER SOFTWARE

474,20

Software supplied on auto-installing CD-Rom for connection of the Mini Counter People system with a PC for viewing from a local station via RS-232 or remotely via converter Art. 05913 of the current status of presences inside the monitored facility.

On the monitor the following is shown:

- The customer's name on the header (i.e.: Museum of Fine Arts)
- Number of people who have entered
- Number of people who have exited
- Number of people present
- 3 presence thresholds with different colouring on the screen and viewing in red of exceeded pre-established maximum thresholds

The program allows:

- Downloading of the data with reference to the presences in a period of time, setting a start date and an end date
- Downloading of the data setting a time interval
- Memorising the status of the presences in a determined moment

Use: this software allows downloading of the data stored in the memory of the people counter, placing it on a PC in an Excel file. The data is shown subdivided into Entrances, Exits and Presences in one hour intervals. This way the data is easily managed for preparation of statistics with reference to the presences within a predetermined period of time

HANDHELD PEOPLE COUNTER

308,30

Container in black ABS
 Dimensions (mm): 105 x 58 x 18
 2 x 16 character LCD display
 Operating voltage: 3 Vdc via 2 AAA type batteries – 1.5 V
 Front label in polycarbonate with 4 buttons In / Out / Set / OK
 Monitoring of bidirectional or mono-directional passages
 Memorisation and upkeep of 30 days or 790 hours on non volatile memory
 Battery status indicated on display
 View on display:
 - Date and time
 - Total entrances per single hour
 - Total exits per single hour
 - Total presences per single hour
 Settings programmable for:
 Date and time
 People Counter Reset
 "Beep" function for every passing
 Zero out data in memory
 Automatic shut down

Use: monitoring of the number of people present in a room (public offices, exhibits, museums, conference rooms, supermarkets, etc...)

GENERAL SALES CONDITIONS

These general sales conditions, save any modifications or variations agreed upon in writing, govern all sales contracts between us and the purchaser, thus including the contract concluded with the acceptance of the order as well as any future contract related to the supply of our company's products ordered with subsequent and distinct commissions.

Opera Srl sells only to professional customers. The customer, buying Opera products, assures to use it just for purposes related to his professional activity.

Prices:

Price list is in EURO and without taxes.

Prices do not contain freight cost and invoicing cost when due.

All invoices will be raised in EURO

Shipment:

National shipment (Italian territory):

- Net value of order, without taxes, is lower than Eur. 800,00 - Transport is paid til customer's premises, with charge in the invoice of the freight cost. The carrier is selected by Opera. In case the customer wish to use his own carrier or to select another carrier, the transport will be Ex our Work. In this case the freight costs are totally handled by customer/receiver.
- Net value of order, without taxes, is lower than Eur. 50,00 - Transport is paid til customer's premises, with charge in the invoice of the freight cost. The carrier is selected by Opera. - There is an extra charge of Eur. 10,00 for invoicing cost. Payment term is always up front or advanced.
- Net value of order, without taxes, is higher than Eur. 800,00 - Transport is paid til customer's premises, with no charge in the invoice for freight cost. The carrier is selected by Opera. In case the customer wish to use his own carrier or to select another carrier, the transport will be Ex our Work. In this case the freight costs are totally handled by customer/receiver.

International shipment - EEC zone:

- Net value of order, without taxes, is lower than Eur. 1.500,00 - Transport is paid til customer's premises, with charge in the invoice of the freight cost. The carrier is selected by Opera. In case the customer wish to use his own carrier or to select another carrier, the transport will be Ex our Work. In this case the freight costs are totally handled by customer/receiver.
- Net value of order, without taxes, is higher than Eur. 1.500,00 - Transport is paid til customer's premises, with no extra charge in the invoice for freight cost. The carrier is selected by Opera. - In case the customer wish to use his own carrier or to select another carrier, the transport will be Ex our Work. In this case the freight costs are totally handled by customer/receiver.

International shipment - Non EEC zone:

- Net value of order, without taxes, is lower than Eur. 2.000,00 - Transport is paid til customer's premises (Incoterm: CFR), with charge in the invoice of the freight cost. The carrier is selected by Opera. In case the customer wish to use his own carrier or to select another carrier, the transport will be Ex our Work. In this case the freight costs are totally handled by customer/receiver.
- Net value of order, without taxes, is higher than Eur. 2.000,00 - FOB with no extra charge in the invoice for freight cost. The carrier is selected by Opera. - In case the customer wish to use his own carrier or to select another carrier, the transport will be Ex our Work. In this case the freight costs are totally handled by customer/receiver.

Returns for repairing

- Returns are accepted only by Opera direct customers. Should anybody need to return goods for repairing, he has to address his request to the nearest Opera distributor.
- All returns have to be sent, freight costs free, to our main factory in Modena, Italy. The goods have to be correlated with a list of items, sort of problem found, contact name and telephone number.

Definitive return

- Any definitive return must be demanded in writing and authorised by Opera in writing.
- Upon authorisation, Goods for definitive return must be sent according to the instructions received. All documents must refer to the original invoice number.

QUALITY GUARANTEE

OOPERA S.r.l. guarantees the proper operation of its products for 2 years from invoice date. The guarantee, however, under no circumstances may go beyond the replacement free of charge of the piece which is considered to be defective. No other expenses or indemnity may be charged to OPERA S.r.l. The guarantee will be void if the products are tampered with by unauthorised personnel or if used spare parts are not original Opera parts.

CONTROVERSIES

For any controversy, even if it originates with the buyer, jurisdiction will fall to the Court of Modena. The descriptions contained in this catalogue are to be considered indicative. The Company reserves the right to make technical or commercial modifications at any time and without advanced notice..
