- **21610** - Fail safe with magnetic reed for door position
 - **21810** - Fail secure with magnetic reed for door position
 - **21611** - Fail safe without magnetic reed for door position
 - **21811** - Fail secure without magnetic reed for door position

Technical Specification

Stainless steel 3mm forend

Bolt dimensions : Extension 18 mm. , Diameter 12 mm.

Operating volt. 12/24 Vdc – Current 400/600 or 200/300 mA

Current insertion: 100 %

Bolt position free voltage contact C. / N.O. / N.C.

Fits horizontally, optional vertical fitting available.
