

Indicator lamps – Intercom

Applications: main entrance and interlocking lobby doors

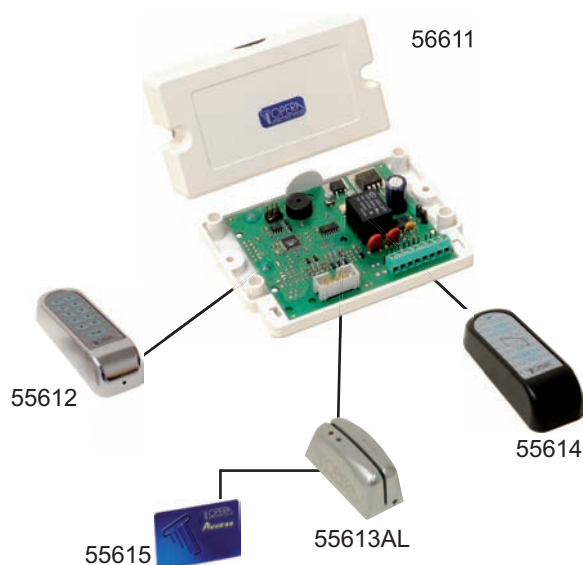

- Fore end in s.a.a. aluminium, dark anodised aluminium, gold anodised aluminium
- Operating Voltage : 12-24 Vac/dc (indicator lamps) - 12 Vdc (intercom)
- Signalling red/green with high efficiency LED diameter 20 mm
- Possibility of selecting fixed or flashing light by means of jumper
- Controls for selecting LED with contacts N.O.
- Call push button with blue LED signalling connection with receiver
- Amplified system equipped with speaker and microphone compatible with standard 5-wire intercom
- Separate volume adjustments for speaker and microphone by trimmers

Stand Alone access control Minilink – 56611

Application: main entrance or secondary doors

- For connection to 2 detection terminals (entry/exit) i.e. magnetic badge readers, transponder readers or code entry keypads
- Grey ABS enclosure for wall mounting, dimensions: 111 x 72 x 29 mm
- Maximum distance from detector terminals: up to 10 metres
- Operation Voltage: 12-18 Vac/dc
- Management of up to 500 users, individual user detection
- 10 years solid state Eprom user memory
- Keypad 55612CRO, chromed ABS, red/green light
- Card Reader 55613AL, SAA, red/green LED, card 55615
- Proximity Reader 55614, grey ABS, red/green LED, reading distance 30-100 mm

Intercom receiver – 05513

- White ABS
- Standard 5 wire connection
- Operating Voltage 12 Vdc
- Internal bell, direct connection to caller

Control unit for multiple intercom connection – 05512

- White ABS casing, mm 111 x 72 x 29
- Controls up to 4 external intercoms (55012, 55013, 55014)
- Connects 3 multi-door internal intercom receivers with 8 pole plug (05514)

Multi-door Intercom receiver – 05514

- White ABS
- 8 wire connection to switchboard 05512
- Operating Voltage 12 Vdc
- Internal bell, extension + mute buttons
- Green LED call light

Voice synthesis unit – 05261

- Microphone and buttons for message recording
- N.O. activated from any lock, 4 input
- 40 sec. message time, amplified speaker connection
- Operating Voltage 12 Vac 12/24 Vac/Vdc
- Indicator lights play/record
